## CLUB ETIQUETTE

### MEETINGS

The monthly GENERAL MEETING is usually held on the second Wednesday of each month at 8pm. All members should endeavour to attend the meeting so as to keep up with club matters.

### DRYCASTING

Casting is usually conducted on the first Sunday of each month. Instruction is given to all new members and a competition is conducted to improve and maintain the standard of our members casting.

### FIELD DAYS

These normally follow each general meeting on the ensuing weekend. It is compulsory for anglers to attend both the sign-on and the weigh-in. Anglers who cannot attend the sign-on for work or other unavoidable reasons may make prior arrangements for a late sign-on. However, only under very exceptional circumstances will failure to attend weigh-ins not be penalised with the loss of points acquired during that field day.

It is the Field Day Officer's duty to inform the committee of any anglers who fail to attend the weigh-in. It is the committee's duty to decide what action is to be taken.

Disputes may be taken to the committee.

Entries for Game Fish Badge, Club Records and Open Fishing Competitions must be lodged with the Recorder within 30 days of capture.

### COMMITTEE MEMBERS

Please notify the Treasurer and Reel Talk Editor of any change of address or phone number.

### GENERAL ETIQUETTE

If you intend to resign from the club a letter of resignation should be forwarded to the Secretary. Please assist the Treasurer by paying your subscription with-in 28 days of the Annual General Meeting. Arrears of 3 consecutive months may cause forfeiture of membership.

**NEW BY-LAW BOOKLETS**

A special thank you to Alan Brayne on his efforts in getting the club By-Laws printed into a new booklet. Great effort Alan and very much appreciated by us all. These are available at our general meetings for those who need a copy.

### EDITORIAL

Last month's meeting dragged on a bit with some of the speakers talking a bit longer than necessary and was generally untidy to the detriment of our instruction period. The latter is very important for our newer (and older) members so the committee discussed the meeting format and as our president Derry has reported in his report the instruction period will be brought forward into the meeting and fishing reports and raffle will be last. Everything is worth a try and our club is always willing to try something different.

Murray Shaw, our social organiser, is really on the ball and has a good deal of arrangements made for our annual dinner and dance. He has the hall booked, band booked, raffle nearly organised and door prizes. There will also be concessions for club members and visitors will pay full price. Follow his progress with interest and make sure you attend this function.

Alf Rutland, one of our senior members who lives in Bunbury, has already reserved his seat for the dinner and dance and we always look forward to seeing him. Alf recently came to Perth for the funeral of one of our old members in Hal Neil, and took the opportunity to have a good conversation with Jim Strong.

It is sad to report the passing of Hal Neil as he was one of those members who was always around and willing to help, a good clean competitor and a top club person. To his relatives the club extends our sincere condolences.

Eric and Pat Bombardere celebrated their 30th wedding anniversary recently and the congratulations of all the club members go to them on this special occasion. Eric has also made available (at the right price) a freezer for our Kalbarri Cottage.

Dennis Green, one of our past members and past president, has opened up a new business with his partner Leon at the new Joondalup complex called Leon's Electrical. The address is shop 7, 162 Winton Road, Joondalup (PH: 300 3500) and if you are in the area pop in and see him or Leon, let him know you are a club member, and he will certainly look after you. He is also involved with Murray Shaw with prizes for our raffle and dinner/dance!!

Once again the trip out of Bill Mills charter has had to be cancelled owing to bad weather as we were all present, rods and all waiting to go out, and the wind decided to blow... and did it blow, so now we have to once again mata another date. Someone must be trying to tell us to stick with shore fishing not boat!!

Committee has also drawn up a suggested list of new venues for next competition year so I ask you all to have a good look at these and pass on your opinion to a committee person so that we can fine tune them. Bear in mind to what level you think we should get involved with the forthcoming National titles in Geraldton in April 1995 and all the trials and events leading up to them and to what level you personally want to get involved. Any questions about these ask at the next general meeting.

The Mackerel Islands trip is getting close and those participating have been having their special group meetings etc to finalise arrangements and to learn more about the area and what to take. Enthusiasm is running high.

Make sure you try to come to the Bluff Creek venue early in March as this is a good club run. Anyone wanting to follow me down in a convoy please ring and let me know before hand and confirm around 6:30 on the Friday night before the venue as I will be leaving between 8-9 that night. Phone 447 5106.

Good to see the roll up at our last drycast and I know Mal is pleased. To help him I think we need to make sure we are ready to cast promptly as we need to keep it flowing so we don't finish too late. Those that need to do a bit more practice may stay on later as we have the use of the oval for the remainder of that day. Good to see the improvement of a lot of the newer casters and remember also, you can all participate in State casting and trials and meetings as well. Learning is what its all bout and enjoying yourself.

Club T-shirts sure looked good as shown by Ian Pilton at our last meeting. Have you got yours yet, if not contact Ian and order one!?

Dave and Lorna Maxted had a recent bereavement with the loss of their mother. Our thoughts are with you and your family.

Eleanor Bennett has taken the time to write this month's field day report and considering she is relatively new in the club I think it is a great effort and I hope a few more take a leaf out of her book. Thanks Eleanor for making my job easier and making our club "Reel Talk" more interesting to read.

# PRESIDENT'S REPORT...

Congratulations to all who helped to make the Mandurah 500 the success it was. A great job and one of the best attendances for this event for a long time, "Well Done." One can't help but notice with members who regularly contribute to the club, the ever willing and smiling face of Andy Thorgerson who is always there and is extremely capable in all fields. Thanks Andy, your a pleasure to work with. Our priority for the ensuing 6 months is fishing; drycasting, social, fun & fellowship. We look forward to enjoying this time with you.

NEW GENERAL MEETING FORMAT - We have listened to comments from members, both new and old pertaining to the format and running of the general meetings to which we thank you for your input and am pleased to advise that the committee meeting held on Wednesday 16th February resolved to alter the format which will concentrate on the thrust of your ideas being fishing, drycasting social and instruction periods which will be at an earlier stage in the meeting than previous. We are excited about this change and look forward to trialing it with you over the next few meetings. In the fishing corner there is an impressive line up of coming events, first of which is the social outing being the club fishing charter with Bill Mills on Sunday 20th February which will sort out the men from the boys. Fishing, both the medium and the deep, around 20 km out from Rottnest. Undoubtedly we will be inundated with our fishing story section when the winners of the day tell their stories. The coming field day is Bluff Creek being the March long weekend between the 5th and 7th. This area is often referred to as God's country with generally magnificent fishing and areas to which are both scenic and exciting to fish in. The difficult part of course is having to be content with camping as a group full of social activities and nestled on a fresh water creek which is like having your own personal bath, depending on where your situated on it. Looking forward to seeing you there. The following month is of course the big one for the year being Mackerel Islands where one needs to wear protective helmets and gloves as the smell of bait can drive the fish right out of the water. We have had instruction periods at both a general meeting and a special meeting which was addressed by John Curtis to whom we thank for is expertise and time, to which of course, we pay the penalty as all the expert advice he's given will well be put to the test as the group will have the pleasure of John's company at Mackerel's. This type of event is probably as close as one can get to a fisherman's dream being away from mainstream civilisation, yet with a warm and comfortable roof, great company, fun and fellowship and the opportunity to look at a substantive range of large fish and the varying types of bait, lures, techniques, line ratios etc, which can be tried in this smorgasbord of marine life. We are now commencing looking at the next 12 months field trips which culminates at the April meeting and Ian Cook will be presenting a list of proven preferred spots for consideration at the next general meeting for your comments. Looking forward to a great year with you.

  
DERRY BARBER

**THIS MONTH'S INSTRUCTION PERIOD**

This month's instruction period has been timed to wet your appetite and get you thinking about the forthcoming Rottnest Island field day to be held on the 14 - 15th May. This is so you can make a commitment by the April meeting and pay your money then as we have to pay Rottnest Island Board one month in advance - hence the commitment.

Peter Osborne will be the instructor for the night and he has a lot of experience to back him up. He will tell of the format of the trip, what to plan for and expect, what gear to take from personal to fishing...so be present and bring a pen and paper to take notes.

HILL RIVER FIELD DAY

A reasonable sized group of hopeful fisherpersons, including husband and wife teams and one father and son team, gathered at the Shell garage Cervantes at 1pm on Saturday 12th February. After signing on, the group including a few "new" members followed our leader Cookie out to the 'best fishing spot'. After a few detours, letting down the tyres, and travelling at what seemed excessive speed (I was in the passenger seat) along twisting and eroded tracks over dunes and through the scrub we eventually arrived at a most picturesque area, the mouth of the Hill River. The first task was to set up camp and for some to have lunch. The day was perfect, with only a light wind which did become stronger as the day progressed. Most fished until dark then stopped for dinner, whilst a few returned to fish about midnight as that we were told "is when the mullo way appear" - but none were caught.

Morning presented the most perfect reflection in the Hill River and later a pelican added to the sight. Fishing continued until about 8.30am when all drove off to Black Rock. Here the remainder of the hopefuls had fished, several since Thursday night. Being typical fisherpersons, those from the Hill River camp took out the rods and a few small whittings were caught. John Bennett also managed to jag a sea slug!

At 10am the weigh in commenced. Hoppy Anderson was very proud of the tailer he had caught and John Bennett with his total catch BUT all were outdone by Tony Dalonzo. He weighed in a 1.05kg tailer and had a total catch of 9.6kg, in fact his catch was greater than the total of all the others! Congratulations Tony but he did not tell us where to find his secret hole!

Thanks Cookie for a marvellous fishing weekend. It was an area I had never visited and would not have known about but for the club and for you organising this field trip. Thanks also to all the others present who helped make the weekend enjoyable.

If I could put in a bit of advice/information especially for the benefit of new members. Go to dry casting as it improves you cast dramatically. I want to thank Harold and the others who on the Sunday previously patiently explained to me how to improve my casting - it worked miracles but although my casting has improved the number of fish that take my bait has not!!!

Eleanor Bennett

**VALE HAL NEIL**

Two of our senior members in Jim Strong and Alf Rutland represented our club at the recent funeral of one of our oldest club members in HAL NEIL. Hal was close to an original member which means he has been involved for more than 30 years and during the 1960 - 70's was heavily involved in field days and drycasting within the club, and I can remember him attending casting when it was held at Floreat Oval. Hal used to like riding his bike and was often seen to pop in at Wordsworth Oval to see "the boys" casting when cycling around. Hal was an absolute gentleman, never a harsh word and always had a smile and a pleasant nature and made a point of helping where he could. We have lost a good club member. Club's condolences to all his family and many friends.

**ANNUAL DINNER & DANCE**

This night out is starting to take shape. The band "Playbacks" have once again been booked for this night.

There are plans afoot for mystery door prizes and a major raffle draw with some excellent prizes being put up to coincide with this night.

Just by attending you can go home with a major prize. (Hint:- It won't all be fishing tackle prizes.)

More information to follow in the coming months. So keep this date free:- Saturday 25th June 1994.

**MACKERAL ISLAND TRIP**

Firstly I would like to thank George Holman for the use of his garage and John Curtis for making himself available for an informative evening on gear and tackle to take to Mackerel Islands. Thanks George and John.

The monies are due now for Mackerel Island trip. We have to be all paid up before we depart, so get that money in now to Eric.

Currently Ian has been scrutinising accommodation in Carnarvon and Onslow. He has booked a certain number of berths and we would like to finalise the required amount so if you are interested, again see Ian.

Cost is \$10 Carnarvon - per night  
\$15 Onslow - per night

Once again Dave Webb will be bringing his mini tackle shop to the meeting and you can still purchase those last minute lures to take. If you are unsure about what lures to take as well as rod and reels, please ask!

Remember - we need the money in NOW for Mackerel Islands

**ROTTNEST FIELD DAY  
14TH - 15TH MAY 1994.**

▪ *Come and join use for a fun and excitement filled weekend.* ▪

*This is the FDO's personnel chose if he could only go to one FD a year.*

This is one of our clubs most enjoyable field days and has a history of producing very good fish captures. The species caught are very varied and there is the chance of some large salmon and yellow tailed kingfish. Some of the fairer sex of the club have caught very good bags in the last few years. It is also a great trip for close camaraderie as we fish together and are able to socialise back at the settlement. The anticipation of looking down onto Radar Reef when we arrive at West End never fails to quicken the heart beat on the bus trip out. The heart beat is very quick after the climb back up heart attack hill. If the weather is good it is magical to watch the Dolphins surfing and see the first salmon leaping on the end of your line. Some people have the adreneline pumping action of hooking a Yellow tailed Kingfish (FRIEGHT TRAINS). You don't normally manage to land them but boy is it fun!!

The format for this F.D. will be similar to the last year. E.T.D. Hillarys 0830 on the Saturday. E.T.A. Hillarys 1700 on the Sunday. Bus times will be advice at the MAY general meeting.

• NOTE

A firm commitment as to the number of people who will be attending and **payment** will be required at the **APRIL** general meeting for bus and accommodation. Cost will be in the range of \$35-\$42 for accommodation and transport depending on the number of members that go. Ferry cost as at the current rate of \$34 /head. Members who pay early will have first option to go. If we are restricted in not having multiples of 6 we will hold a ballot at the April meeting.

Proposed format will be similar to the last May field day.

**FEBRUARY DRYCASTING REPORT**

The February cast was held at Yokine Reserve on Sunday, 6th to fine conditions with a light south easterly breeze blowing (side to head wind).

Great to see such a healthy roll-up (25 casting in the competition and another 12 learning to cast under the instruction of George Holman). Judging by the progress of the twelve new casters under Georges wing I envisage another 12 in the competition next month which will further benefit them and casting as a whole.

I would like to say a big thank you to Ron Thompson, Andy Thorgerson and Jim Strong for their help on the day and also to Murray Shaw who did not cast but came down to help and this he did for the whole morning.

While I'm in a thank you mode a special mention to Eric Bombardiere (who incidentally has just become a grandad) for getting some tape for the double-handed accuracy and to Eric Parker for helping me to mark it out.

Working together is what it is all about and I look forward to a few more coming forward and helping out on the day.

We have a strong Veterans section going at the moment and a good competition and camaraderie is developing. It would be nice to see a few more juniors and ladies competing.

Young S Pilton is showing steady improvement in the junior section but needs some competition.

Adam Panizza is showing good form for the short time he has been coming to casting and beat us all in the artificial bait and single handed accuracy.

Garry Gildersleeve is really burning in the double handed accuracy with a creditable 147 out of 200.

George Holman set the pace in the 112 gram level line with casts of 150 and 151 metres but managed a penalty in the artificial bait - something which was very prevalent amongst all casters.

Alan Brayne, Morrie Kolman and Hans Wytenburg all had their new long rods firing on the day but it seems a bit of fine tuning is needed as the odd penalty popped up!!

John Bennett had a cast with a longer rod with a low mounted spinning reel after casting was concluded and cast 115 metres...he is now revising his thinking as he has found he certainly has the ability!!

Some of the ladies present were showing encouraging signs also. A bit more practice and coaching and we might have a good ladies team when the State titles come up in November.

Remember that we will be fishing on the long week end in March (5,6,7) so casting will be on the following SUNDAY, 13TH MARCH!

Please take the trouble to listen for your name to be called out to get ready to cast straight away. We are taking too long because we have to wait for people who are tardy. With more people casting co-operation is the key.

See you all on the 13th of March
