NEXT GENERAL MEETING.

Our December General Meeting will be held in the R.S.L. Hall, Bay Road, Claremont, on Wednesday 13th December, and will commence at 8 p.m. sharp.

INSTRUCTION PERIOD.

Following the usual practice, this period will take the form of a social after our meeting, giving members a chance to mix with their mates for a chat about that last Field Day, or the next Field Day.

Supper and refreshments will be provided for members, so do not miss this opportunity to join your Clubmates and celebrate the Festive Season.

LAST COMMITTEE MEETING.

The last Committee Meeting was held in the R.S.L. Hall, Claremont. This meeting did not conclude until 11.15 p.m. Any two members are invited to attend any Committee Meeting provided prior notice is given.

NEXT COMMITTEE MEETING.

Will be held in the R.S.L. Hall, Claremont on Thursday 21st December, and will commence at 7.30 p.m. sharp.

Members must fill in separate forms for fishing competition (OPEN), Club Records and State Records, i.e. three in all.

FESTIVE WISHES.

The President and Committee would like to take this opportunity of wishing all members a Very Happy Xmas and Prosperous New Year.

To the wives goes a very special greeting and hope that in 1968 we have just as much enjoyment at our Social Functions as in 1967. This all helps to make the Clubrun well and be enjoyed by wives as well as the Fishing Heroes of the S.C.A.C.

To all those who are packing up and moving North or South for holidays, a happy holiday.

So to all Members, Wives, and Children ---

"A VERY MERRY CHRISTMAS".

CHANGE OF DATE, APRIL FIELD DAY - YALLINGUP.

As our normal Field Day would fall on Easter, this Field Day will now be held on the following weekend, the 20th April.

CHANGE CASTING DATE . MARCH

.....

DRY CASTING IN MARCH WILL TAKE PLACE ON THE SECOND WEEKEND DUE TO THE LONG WEEKEND . (MURCHISON)

DRYCASTING NEWS, NOVEMBER, 1967

Members turned out in full force for November drycasting, and it was pleasing to have such a big crowd along. Light easterlies and pleasant sunshine set the mood for some very good casting. It was nice to have Dick Holland with us again - apparently the rest did him good as he made a lovely cast of 395 ft. with a DAM (end spool reel). Glad to have Tom Concoran with us again, also Lofty Griffiths - we can always be sure of a laugh when Loft's around. Our new member, Brian Leicester is learning quickly - for helpful hints on 'burnt' fingers from lines, see Brian! Apparently the prawning season is starting early this year as Alan Bunnett has a patent in constructing prawning nets, Alan kept it under his hat, but some of us had a preview. For further information, see A.B.

This month's L.L. Distance winner was Dick Holland, and the longest cast in this event was made by Bill Bridger with a cast of 436 ft.

D.H. Accuracy - targets were set at longer distances this month, but this did not deter members from accurate casting. Eleven members scored with all four casts and many others scored with three. The winner goes to W. Bridger with 56/80, followed closely with A. Bunnett with 55/80, and two members tying for third, D. Talbot and R. Tucker 54/80.

In the S.H. Accuracy, T. Smith scored a lovely direct bull but this was not good enough, and first place went to D. Talbot with a total of 22/40, Hew Hoy Yew with 20/40, and T. Smith 19/40.

This month brought our second S.H. open and once again R. Tucker took this off with a nice cast of 284 ft. Second A. Bunnett with 266 ft, and third H. H. Yew with 260 ft. In this event many members are gradually creeping up to the winners with some mighty fine efforts.

Overall winner of the day - Doug Talbot with 112 points.

DRYCASTING ORGANISERS.

READ THIS - IT MAY BE THE MEANS OF SAVING A LIFE - PERHAPS YOURS.

THE SURF LIFE SAVING ASSOCIATION OF AUSTRALIA, W.A. STATE
CENTRE INC.

Firstly, the list of "Dont's" published by the Association is simple and does not call for increased intelligence. Their observance at all times may save your own, your friend's or someone's life. These are shown hereunder:-

DON'T get excited if caught in an "under-tow" or current. Signal for help by raising your arm in a perpendicular manner, and adopt a floating position until help arrives.

DON'T struggle if seized by cramp. Signal for help by raising your arm, and maintain a floating position. Try and keep the effected part still. Cramp alone cannot drown anyone, fear does.

DON'T struggle against the current; swim diagonally across it.

DON'T bathe directly after a meal.

DON'T bathe outside the area indicated by the flags on the beach.

DON'T bathe in quiet or secluded spots where the beach is unattended.

DON'T bathe when the beach has been closed and a sign "Beach Closed - Surf Dangerous" in red letters on a white background is displayed.

DON'T bathe where the water is calm. Always choose a spot where the waves are rolling evenly shorewards. (Still waters run deep). On entering the water select a suitable landmark on the beach, and see that the cross-currents do not carry you away from that point, as you may drift onto an outgoing current.

DON'T stay in the water when feeling cold or numb. Come out immediately or cramp may result.

contd.

contd.

DON'T interfere with life-saving gear.

DON'T leave rubbish, bottle or tins on the beach.

Secondly, to emphasise the points arising from the Scarborough tragedy, and to outline where common sense and hinderance conflict, the following factors are recorded:-

- (a) If someone collapses or is observed under the water near you, obtain assistance and get them to the shore.
- (b) If the person is unconscious or has difficulty in breathing, send someone for assistance immediately. If you know anything about resuscitation commence in action straight away. If you do not, the following simple rules will assist until a more qualified person comes along.
 - (1) Bend the head backwards to obtain maximum extension of the neck. A rolled up towel or pile of sand under the shoulders will make this possible.
 - (11) Clear all obstruction from mouth or air passages.
- (c) When patrol arrives, hand over patient immediately and ask if you can assist in any way.

Thirdly, always remember that fresh air is essential not only to the patient but also to members of the patrol. If the shade temperature is in the 80's, it will be at least 140° in the sun and possibly higher still on hot sand. This makes breathing extremely difficult at any time. Working space is an absolute necessity. Therefore do not join the crowd that normally gathers at scenes of this nature unless for the purpose of assisting. The quotation "CURIOSITY KILLS THE CAT" is very apt, but in cases like this, it is the patient that dies, not the cat.

THEO HAYWOOD,

Hon. Sec.

LANCELIN VENUE - NOVEMBER 1967

After a week of perfect weather, Saturday threatened rain, although this did not materialise. The largest contingent to date arrived on venue finally totalling 63 in all, of which were included 14 welcome visitors.

Shortly after setting up base in the caravan park, Tommy Vivian arrived and sportingly scouted the Southern beaches reporting shallow water and fair heaps of weed, and consequently all but nine headed north and an almost deserted camping area was the result.

The afternoon was spent examining a brand-new motor bike brought on venue by Lofty Griffiths, and tried out, with some trepidation by various members. Lofty did a run along about 12 miles of beach, and reports were that the bike bogged suddenly at one spot, and Lofty carried on at 50 m.p.h. on his own!

As usual, by about 3.30 p.m. members and visitors had picked their spots, and it was on. From the 9 or 10 who fished the local areas the choice was the Beacon Beach. Water was good and weed slight, but except for one spot measuring 3 ft. x 3 ft. into which your bait had to drop, the fish were missing almost completely, and the evening finished with a very poor bag.

We consoled ourselves by the fact that we knew they would be swarming at Wedge and some of the lads would get into them?

The following morning we shot back to the Beacon area and from about 4.30 a.m. until 8 a.m. we were privileged to see one Tailor, just legal size pulled from the water.

At about 8.45 the outlying anglers began to arrive at weigh-in, and but for the use of a pair of pepper-scales we couldn't have registered a weigh on the usual ones.

The final tally of 292 lbs with a top catch of 23 lbs by Eric Sullivan tells its own story. Jim Strong's 9 lb. Milloway took off the largest fish and gave him a grand total of 9 lbs. What happened to the rest of them Jim.

contd on page 12 bottom.
