February Dry casting

<u>When</u>	Sunday 7 February 2016. Competition casting starts at 8:30am.
<u>Where</u>	Mirrabooka Regional Open Space.
<u>Fees</u>	\$10 per person, \$12 per family.
<u>Events</u>	Double handed accuracy, Single handed accuracy, 56 gram distance, Artificial bait distance, 112 gram distance.

<u>Casting order</u>	Seniors, Ladies and Juniors	Veterans
	7 February 2016 Distance first, then accuracy	Accuracy first, then distance

February General meeting

<u>When</u>	Wednesday 10 February 2016, 7:30pm.
<u>Where</u>	Coolbinia West Perth Amateur Football and Sporting Club room.

Fishing field days general

<u>Local sign on</u>	At General meeting or phone Field Day Officer before 8pm on Thursday.
<u>Late sign on</u>	Phone the Field Day Organiser. The club will assume you will not be fishing if you haven't signed on at the sign on place or phoned.
<u>Please SMS</u>	the Field Day Organiser at 0401 054 110 as he will not answer the phone if he is driving or if earlier, he may be out on a reef fishing.
<u>Club sign off</u>	If you have signed on then you must sign off in person at the weigh-in place at the nominated time or by phone (or if not contactable by phone use SMS) no later than ½ hour before the weigh-in time if you have no fish, have an emergency outside of the Field Day, or have personal reasons and will not attend the weigh-in.
<u>Club fees</u>	\$10 per person, \$12 per family. If you sign on you must pay the Field day fees. Please bring the correct money because there may not be change. If you don't make payment at sign-on or at the preceding General Meeting or you have signed on by telephone, please make payment to the FDO or Assistant FDO at the weigh-in.
<u>FDO</u>	Local FDO to be advised at the General meeting.
<u>Fish</u>	Fish caught between the lines in and lines out times are eligible for the Club Field Day competition and weigh-in. Fish caught before or after those times are eligible for the Open fishing competition.
<u>Local boundaries</u>	Normally Penguin Island sand spit to north wall of the Two Rocks Marina, including the Swan and Canning Rivers, the North and South Mole, unless different boundaries are listed for that month.
<u>Local weigh in</u>	Location to be set at General meeting, or the Local Field Day officer may set an alternative or additional location or time by arrangement with the members who have signed on. Scales will also be available on George Holman's back patio. An adult member must witness weights. Field Day money to be left with the scales in an envelope with your name and details written in the carbon copy Field Day book. No money = no points. Results to be phoned to FDO by 8pm the next night.
<u>Fish together</u>	Check at the General Meeting prior to each field day for arrangements and discussions about when and where members can meet to fish together locally in the metropolitan area or at the away venue. New members are encouraged to fish with experienced members for guidance and help.

February Field Day White Hills

<u>When</u>	Saturday/Sunday 13/14 February 2016.
<u>Where</u>	White Hills.
<u>Boundaries</u>	Two kilometres south of beach access point at Myalup to northern beach car park at Madora Bay.
<u>Sign on</u>	Saturday 12 noon at Miami Bake House, 609 Old Coast Road, Falcon.
<u>Lines in</u>	Saturday 2pm
<u>Lines out</u>	Sunday 9am
<u>Weigh in</u>	Sunday 11am at Miami Bake House, 609 Old Coast Road, Falcon.

Local Field day for February

<u>When</u>	Saturday/Sunday 13/14 February 2016.
<u>Lines in</u>	Saturday 2pm
<u>Lines out</u>	Sunday 10am
<u>Weigh in</u>	Sunday 11am.

February Committee meeting

<u>When</u>	Wednesday 17 February 2016, 7:30pm.
<u>Where</u>	Coolbinia West Perth Amateur Football and Sporting Club room.
<u>Visitors</u>	Club members who wish to see what's involved in Committee work may attend Committee meetings by invitation as visitors and observers and at the discretion of the President. Please contact the President or the Secretary well before the meeting to arrange your invitation.

March Field Day

<u>When</u>	Saturday/Sunday/Monday 26/27/28 March 2016.
<u>Where</u>	Bluff Creek.
<u>Boundaries</u>	Cheynes Beach to as far as you can walk past the rocks at the eastern end of Bluff Creek.
<u>Sign on</u>	Phone FDO before Thursday night, or Saturday 12 noon at Bluff Creek camping area.
<u>Lines in</u>	Saturday 1pm
<u>Lines out</u>	Monday 10am
<u>Weigh in</u>	Monday 10am Bluff Creek camping area.

Local Field day for March

<u>When</u>	Saturday/Sunday/Monday 26/27/28 March 2016.
<u>Lines in</u>	Saturday 1pm
<u>Lines out</u>	Monday 10am
<u>Weigh in</u>	Monday 10am.
<u>Boundaries</u>	To be decided.

New member applications and acceptances

None this month.

Membership Coordinator, Pat McKeown

Club shirts, jackets, hats, badges and stickers

Legionnaires cap yellow	\$15		
Bomber jacket waterproof	\$50	Lightweight jacket waterproof	\$45
Polo shirt long sleeved	\$35	Polo shirt short sleeved	\$30
Cloth Club badges	\$4.50	Vehicle stickers Club logo	\$2

Available from Committee member Shane Wignell.

Bookings for Kalbarri house

See the article on the inside back cover of Reel Talk for rates and more information.

Pets may be allowed by prior arrangement but must stay outside the house.

Please contact Property Officer Eric Parker by phone or email for bookings or more information. Collect keys in Perth before leaving for Kalbarri. Please arrange key pickup in advance. Please return keys within 2 days.

Property Officer 2015/16, Eric Parker

Wanted - scrap lead

Any members who would like to donate scrap lead to the club to make sinkers for sale to Club members, please contact Eric Parker.

Please no car batteries, these have too much smell and waste.

Proceeds from the sale of sinkers is donated to the Club.

Eric Parker

Dry casting report 3 January 2016

Not much to report this month with only 9 members and 1 visitor, Mark Taylor from the beachcombers.

A minor problem with the new laser held us up a little but has since been rectified by Terry.

The day itself was quite pleasant, with a light moderate wind from right to left which wasn't really a problem. We seemed to be a little sheltered there especially on the accuracy court.

I have always considered Gary to be one of the more accurate casters in the distance events because of his style of casting, but over the last few months he has put 2 or 3 out of court. More practice I think Gary.

In the men's division, Mark Taylor had some very good casts, for example, 56 gram 145 metres, artificial bait 160 metres, 112 gram 179 metres. Mark also had the best double handed accuracy score at 108.

Next best in the men's division, Jeff 56 gram 112 metres, artificial bait Mark Hansen 101 metres, 112 gram Mark Hansen 125 metres.

Vets division. 56 gram Ron 138 metres, George 135 metres. Artificial bait, Ron 130 metres, Gary 113 metres. 112 gram George 148 metres, Ron 147 metres.

Terry took out the double handed accuracy with 152 followed by Gary with 135. George won the single handed accuracy with 27, followed by Terry with 26. Terry had 1 bullseye in the double handed accuracy.

Peter Osborne had a very consistent day in the single handed accuracy with 0, 0,10, 10.

The best single casts in the 112 gram Open, Mark Taylor 184.82 metres, Ron 155.91 metres, Gary 148.04 metres, George 140.29 metres, Mark Hansen 138.59 metres and Jeff 115.93 metres.

Our dry casting trailer worked well, there were a few minor problems that can be rectified. Next month I should remember to connect the trailer lights. (Anybody would think that I have never towed a trailer before).

Thanks to the helpers. Like to see a few more faces casting next month.

Dry casting Officer Ron Thomas

Dry Casting winners for 3 January 2016

Event	Seniors winner		Veterans winner

Notice of motion

The Surf Casting and Angling Club adopt the same scoring system for their monthly drycasting events, as used by the Australian Anglers Association in State and National events, ie. percentage system. This system should take place as from the May drycasting day, 2016.

The purpose of this motion is to ensure that the scoring system be more genuine and accurate.

Ron Thomas

Reel Talk Editor

More often than I like these days, the words I want to use just don't come if I try to speak without lots of notes. And sometimes I forget some of the things I wanted to say, or say them in ways that aren't exactly what I mean or which could be misunderstood. So I often write stuff out just in case it is needed and then I can read it out.

The January Committee meeting had some comments about the Reel Talk Editor and the roles and the running of the Club.

This statement I had prepared earlier "just in case" was read out at the end of the meeting.

Mr Chairman

I have produced 132 very high quality issues of Reel Talk over 11 years, far more than any other Editor in this Club.

I have written many articles which were of importance or interest to Club members. Many such articles have been seen by the President and/or other Committee members before publication.

I have printed many articles submitted by members, most where the only editing is for spelling, grammar, clarity, layout and accuracy if required, and almost always after showing the members those edit changes and asking for and getting their OK for any changes. Some articles have been reprinted.

I can recall only a small number of submitted articles which have not been published, and the Committee has been consulted and agreed about the controversial ones of these.

Some controversial articles have been published exactly as submitted, and I have written articles I have believed were necessary for the rest of the Club members to have the full facts, options or possibilities which were not covered in the article as submitted.

I respect the right of the Committee to set conditions for the content of Reel Talk.

But I also expect that those conditions would only be ones that are absolutely necessary.

I consider the decision ** made tonight is an application of the mindset "*we set the pass mark at 100%*", where unless everything is exactly 100% of what some people want, then it is called a failure.

And after 11 years, I consider the decision ** is a vote of no confidence in me.

As usual by this time of the month, the next Reel Talk is almost complete and just waiting for a few of the regular reports from Club officials.

So my last and 133rd Reel Talk will be the February 2016 edition, but a much shorter version than usual. It will contain a copy of this statement.

I will pack up all Club physical property in my possession and deliver it to the Secretary after the February edition is printed by late January.

Then the Club can look for someone else to do the Reel Talk Editor's work. ***

Terry Fuller, 20 January 2016

=====

** I would now add here the words "***and some comments***"

*** I should have included here the words "***and website***"

=====

I did not intend to stand for Reel Talk Editor or any Committee position at the next Committee elections in August 2016.

I told the Committee this at the December Committee meeting and told the members this at the January General meeting.

My statement changes that end time as Reel Talk Editor etc from early August to the end of January 2016.

Modifications to dry casting laser

The replacement Leica Disto D510 laser measure had its first workout at Mirrabooka on the January casting day.

It is very sensitive and easily measures over 200 metres with a reflective target, even car number plates. At shorter distances it will read off many surfaces that the old laser couldn't use.

People can see the red laser spot when it is on the Club's reflective target at these distances.

Aiming with the LCD screen uses crosshairs to mark where the laser spot is aimed. Just put the crosshairs onto the target held by the marker and push a button.

Looking towards the north when the sun is high, the target and person holding it are backlit and much more difficult to see in the screen at long distances.

Reflections of the sky in the glass cover wash out the screen below. A black umbrella was used for a while but was not thick enough and reflections from the silver frame became a problem as the sun got higher.

Crosshairs in the LCD screen

A matt black sheet of plastic was used as a shade for while, but that had to be held right above the screen.

One possible fix was to put a fold out white border down each side of the target so that it could be seen more easily in the LCD screen.

Telescopic viewfinder fitted to new laser on tripod.

The old laser used an external clip-on telescopic viewfinder to see when the spot was aimed on the target. This was very quick and easy to use and an experienced operator could get a measurement in about 2 seconds.

When the laser units were changed over, I made sure that the clip on magnetic fitting on the laser body and the telescopic viewfinder were returned to me.

The new laser is thinner than the old laser, so the clip on fitting doesn't fit.

The magnetic clip has been fitted to a new piece of aluminium angle riveted on the side of the base plate which holds the laser on to the tripod.

The modifications are only to the base plate plus two holes drilled through the old clip-on fitting and nothing has been done to the laser itself, so warranty will not be affected.

The laser measure is fitted to the base plate with a screw into its standard tripod thread.

Because the instrument and the sight are not directly joined together, there will be a parallax error or effect if the instrument is not properly aligned on the base plate.

Now there are 3 measuring options, the on screen crosshairs which work really well in many light conditions; aiming the laser by looking for the spot on the target at shorter distances; or aiming through the familiar telescopic viewfinder.

If the on-screen crosshair aiming option is not used, then the last three distance measurements stay on the display, rather than only the last measurement.

Design, metalwork and article by regular laser operator, and past (by the time you read this) Reel Talk Editor, Terry Fuller

Recorder's report

The December Field Day saw Sri Srigandan, Lee Yongli and Ron Thomas add to their species badge.

Name	Bream	Flathead	Flounder	Garfish	Herring	Yellow Eyed Mullet	Mackerel	Mulloway	Pink Snapper	Salmon	Samson Fish	Snook or Pike	Tailor	Tarwhine	Trevally	Whiting	Wrasse	Amberjack	Dart	Banded Sweep	Western Rock Blackfish	Yellowtail Kingfish	Number caught
Sri Srigandan	1				1							1	1	1	1	1	1						8
Ron Thomas		1			1					1			1										4
Lee Yongli					1					1			1										3

There are still Seven sections of the Open Fishing Competition that have no entry as of yet, some of these are very common species such as Spanish Mackerel, Tarwhine, Skippy, Northern Trevally, Pike/Snook. There is also a fly rod section for any legal sized fish caught on a fly rod, I am sure there would be some members that have a fly rod sitting in the shed or garage collecting dust that could be put to use to take out this award.

There are no other changes to the report in the December Reel Talk, or to the Barron Lure competition in the November Reel Talk.

Recorder 2015/16, Justin Rose

January 2016 fishing field day

SCAC Field Day Report: Cervantes/Jurien – 16th & 17th January 2016

Synopsis

The January 2016 field day was spread from Sandy Cape to Jurien to Cervantes with most persons fishing the Sandy Cape area. Some fished around the carpark leading to the Hill River. Weather conditions at this venue were good to very good except too good for Saturday, but a wind change Sunday morning saw a strong SW suddenly come in with surprising results. Tailor schools not coming close in to shore to feed during light winds, and with the following morning the SW wind saw some Tailor move in.. Overall at all locations, the result was ranged from zero to fair to good bags, mainly the latter, with Tailor catches predominant and very small numbers of mainly herring and very few other species.

The away venue gave pleasant fishing conditions with most getting a feed of fish. For the field day the Surfcasters that attended the weigh-in, most had big grins with lots of kidding about things that went right or wrong.

The Away Trip.

The sign on at the Cervantes Service Station was at 12:30 pm Saturday 16th January with lines down at 2:00 pm with fishing through until Sunday 17th January with the usual lines up at 10:00 am and the weigh-in conducted at 11:30 am at the sign-on location.

A total of 10 SCAC Anglers including one Junior came to the away sign-on. (Peet and Sandra Wessels, Greg and Morgan Keet, Eddie and Debbie Korin, George Holman, Ron Thomas, Martin Wearmouth and Peter Osborne, Two of Martins worked mates joined us to see what our club field day was about.

At the sign on Peter Osborne advised he had done a bit of local research on Friday night and Saturday morning. With very calm conditions he did not get any fish. Hence at the sign in it did not take much convincing from Ron and Martin we should try Sandy Cape. So Martin and Ron led a convoy of vehicles including Martins two friends, plus Peet and Sandra and Peter O.

The convoy wound its way into a beautiful bit of beach a kilometre south of the Sandy Cape camping area. All immediately set up rods and at 2:00 pm a barrage of mulies hit the water. Light easterly winds gave very calm conditions hence fish appearance afternoon and evening was very slow. Both Peter & Sandra and Peter considered they were on the wrong end of the queue. By evening they

only had one fish each, however Ron, at the Southern end of the group had 6 Tailor and next door to him Martin had 4. Late afternoon we watched a small shark and a large smooth-skin ray swim up and down in front of us. The latter nearly beaching itself in the skinny water wave brake

Martin looking pleased with himself after catching a tailor in every calm conditions

Peet and Sandra sorting out their bags of Tailor

Peet concentrating hard to find an elusive tailor on Saturday afternoon

Surfcasters hit Sandy cape and soon have a barrage of mulies hitting the ocean

The following morning on getting up out of bed in dribs and drabs from 4:30 am, within an hour, everyone was wetting a mulie. Again calm conditions prevailed and fishing was very slow, then, a little after 7:00 am a fairly strong SW wind made an appearance. (Would guess 15+ km/hr) Only 5 minutes later, like switching on a light switch, Tailor schools came appeared in front of us all. Looking south to a sea of rods there were fish coming in every couple of minutes. Everyone, including Martin's friends completed their bag limits before the fish switched off a little more than an hour later. They were not huge Tailor – generally in the 33 to 43cm range, but provided a good bag of eating fish. Some of us fished with a second small hook rig above the mulie, resulting in an odd Herring coming in. Peter O managed one of his Herring on a 3/0 hook. Peet managed to land a stray one-off Dart to give him three species three - highest for the field day. This again reinforced that the best Tailor feeding conditions require a SW wind of 15 km/hr or more.

Greg Keet & son Morgan and Eddie & Debbie Korin fished in the Cervantes to the Hill River carpark area. Fish were not prolific with Greg getting 4 Tailor and his son getting 2 Tailor and a Herring. Eddie and Debbie missed out altogether

George fished the beach a little less than a km south of the Hill River carpark with some success. He found good Tailor. He had the best fish of the competition with a Tailor of 0.78 kg and the heaviest bag of tailor of just over 5.0 kg. The rest of us that bagged out had bag weights from 3.1 to 3.7 kg. While he did not find a Sting Ray, George managed to land a large Shovelnose Shark. This gave him a good work-out. These are not a shark but a member of the ray family.

At the weigh-in nearly all big smiles. While Peet had more species, Georges bag was heavier enough to give him the highest points. Hence George obtained top spots for heaviest bag, heaviest fish and most points.

See below for the results tabulation.

Local

Three Surfcasters fished local, Mark Hansen, and initially unbeknown to each other, Victor and Slavka also fished Leighton beach Saturday. Apparently there were fishermen just about shoulder to shoulder on both sides of the rock groyne. As we encountered north, very calm conditions, hence no Tailor arrived along this bit of coastline to feed at dusk. They all caught 3 or 4 Whiting each, with Mark also getting a couple of herring.

An "A" for effort but a "0" for Tailor fish captures.

Other

Due to an error in communication on advice to field day venue change, Lee Yongli went to Preston. He joined Ken and Klaus who had decided to fish at the usual Preston spot. The risks perceived in going to this area due to bushfires did not eventuate, other than the higher presence of police. they had no issues with driving into Preston and then onto the beach. Again no Tailor, only a few Whiting except Lee managed a very large Flounder. (Scaled and gutted, the, shallow pan fried in a bit of butter, and eaten off the bone, one of my favourite fish meals.)

Hope to see you at our February field day now at the White Hills/Preston areas – high expectations these locations will provide us with schools of quality Tailor and other miscellaneous species.

Tight lines,

Peter Osborne

Field Day officer

Top scores up to January

2016 Rule change - Fishing Points Scoring

Proposed Motions put forward by Peter Osborne (**– key words in red and *italic***)

Motion no 1 put forward on basis that the intent of the point scoring system is to recognize the best most “skilled” fisherperson. (emphasis on skilled) While two measures currently used are based on weight and number of species in combination this gives a good measure of skill, and I believe a fair and reasonable measure except I consider a minor tweak to the calculation to recognize in a small way the number of fish caught.

An example is if you caught 4 Tailor average weight of 0.5 kg and I caught 1 only Tailor of 2.0 kg for the weigh-in points we both receive 10 & for a species plus $10 \times 2 = 20$ for a total of 30 points. If one point is given for each fish caught this would give recognition of a better fishing skill in catching more fish giving you 34 points and I would receive 31 points. A smmlll increment in recognition of skill

Notice of Motion 1

2.4 Field Day Point Scoring

2.4.1 Trip Field Day Attendance Points _ All members who sign on for a Field Day shall receive ten (10) points for attendance. These will count towards the Field Day top ten points and thus for Sportsperson of the Year points.

2.4.2 General Meeting Attendance Points _ All members who sign on for the Trip Field Day or Local Field Day shall be credited with a further ten (10) points if they have also attended that month’s General Meeting.

2.4.3 Weigh In Points for Field Days Points - are awarded for the following:-

1. 10 points per eligible species.
2. 10 points per kilogram weighed in.

Add

3. 1 point for each fish weighed in

2.4.4 Multiple Hook-Up Should one fish be hooked and landed by more than one

Should one fish be hooked and landed by more than one angler, then each angler will receive his proportion (i.e.: half or one third) of the weight points, and if applicable to his bag, the species points calculated per Rule 2.4.3

---- ooo0ooo----

Motion no 2 put forward on basis that the use of actual points for Fishing and Drycasting are based on parameters that are entirely different and thus earned different ways that cannot be exactly correlated to each other By giving the top Fisherperson (using the point scoring system a 100% - (100

percentage points) and the top Dry-caster using the applicable point scoring system 100% (100 percentage points) it puts the top person of each category on exactly the same footing. Other individual scores are calculated as a percent of the top point score for that category. The individual percentage points are added to determine the Sportsman of the year.
(Historically the results have given a significant bias towards the top Dry-caster)

Notice of Motion 2

6 Sportsman of the Year Points

The member who gains the greatest number of **percentage** points for **both Fishing and Drycasting** in any one competition year shall be known as the Club's "Sportsman of the Year."

This shall be based on the top Fishing person points, per Rule 6.1 are given 100%, (thus 100 percentage points for fishing) and all other percentage point calculations for applicable individuals are a % based on their points received divided by the aforementioned top point score. To this shall be added to the individual Drycasting percentage points using the same method of percentage calculation based on individual points per rule received for Drycasting per Rule 6.2

--- ooo0ooo---

Voting for Field Day Venues 2016/2017

Preamble:

The following is the compilation of votes received against the various venues for the forthcoming fishing year.

Some overview items to be addressed:

- 1) The club President has always touted concepts where the venues should be distributed in accordance with: -
Two long distance away venues, one North one South.
One or two trips to Rottneest - dependent on numbers (due to cost considerations)
One Local with standard boundaries as current year, (i.e. Incl. Swan River)
Seven venues on medium distance both north and south.
Within listing, one venue be a new one or one we have not visited for several years
- 2) Review by you of same and discussion in February on inputs from members may result in some rethink, consolidation of venues, etc. Also for some votes boundaries were not well nominated noting also that some votes have same central venue but different boundaries. Hence with agreement on a particular venue, decisions have to be made on boundaries.
- 3) An action has to be made in February immediately following the meeting concerning the timing of the May Rottneest venue. Due to holidays accommodation this month can be booked out early. Past years we have booked in Feb and have always obtained suitably accommodation. In the decision to make the booking, the dates for the weekend needs to be reconsidered as:
 - a. For the normal field day that would fall on 14- 15 May where the Tides are not good for walking out on reef, hence review of alternatives: -
 - b. While good tide condition, 7-8 May encompasses mother's day this could restrict some people from participating.
 - c. Good tide conditions on 21- 22 May, hence it is recommended that our normal weekend be changed to this. The majority of all persons fishing at Rotto and other selected venues will also have to agree to this date change.
- 4) Request that if participated in venue selection you attend the February General Meeting a final review in March. The list will be republished in March incorporating any inputs resulting from the

Feb Meeting discussions to arrive at a final agreement and should result in voting in April without discussion.

Issue 3 - Initial round of votes received by the FDO for Venue selection - Competition Year May 2016 to April 2017 **SCAC**

Compiled - 23 Jan 2016

Field Day Officer, Peter Osborne

AAA WA State Titles Rock and Beach

Refer to the attached Flier and Nomination Form

The AAA Rock and Beach competition will be held on 5th and 6th March from Albany to Bremer Bay,

In the past, Surfcasters has had considerable success at this competition and venue.

Hence, please consider for the February General meeting your commitment to participate or otherwise.

SCAC will also provide the AAA Competition number.

Forms need to be filled in whereby the level of participation will also determine teams.

The Field Day Officer will lead a discussion on participation, assemble and submit forms in accordance with the Attachments

Field Day Officer, Peter Osborne

Individual Registration Form 2015/2016 Beach and Rock Championships Cheynes, Saturday/Sunday, 5/6 March 2016

All participants must register prior to the event. Registrations sent to Jason Pember 11 Bering Prom Canning Vale 6155 or jason.pember@fpc.wa.gov.au by the 02/03/16. There is no briefing on the day of the event. Entry fees must be paid to the AAAWA. Enquiries to Jason Pember 94555337 or 0428 639 858.

Please Print Clearly.

AAA Competition Number

Surname:- _____

Other names:- _____

Address:- _____

Post code:- _____

Age:- Mini Junior:- Date of Birth ____/____/____ (Under 12 at 1 August 2016)

Junior:- Date of Birth ____/____/____ (Under 16 at 1 August 2016)

Veteran:- Date of Birth ____/____/____ (over 55 at 1 August 2016)

Section:- I wish to nominate for section (please circle one)

Mens Ladies Veterans Juniors Mini Juniors

I am a financial member of _____ Club.

Fees:- Mens:- \$15 Ladies:- \$15 Juniors & Mini Juniors:- \$10 Veterans:- \$10

Please make cheques payable to:- Australian Anglers Association (WA Div) Inc.

I **certify** that the above information is correct and I **agree** to abide by the rules and regulations current for this event. I acknowledge that all competitors participating in the competition do so entirely at their own risk and the organisers, their agents, and the AAA WA Division, will not be held responsible in any way whatsoever for loss, injury or damage sustained by my participation in this Competition.

Signed: _____ Date: ____/____/____ Parent/Guardian: _____

(For Juniors and Mini Juniors)

**AUSTRALIAN ANGLERS ASSOCIATION
(WA DIVISION)**

**STATE BEACH AND ROCK CHAMPIONSHIPS
5th & 6th MARCH 2016**

Boundary: Middleton Beach Albany to the Bremer Bay River Mouth.

Start Times: Lines down at 1 pm, 5th March 2016. There will be no briefing for this event all participants must pre-register. All rules must be printed from the AAWA web site.

Weigh-in: 4 pm sharp on Sunday 6th March 2016.

The Weigh-in will be held at the Cheynes Beach Caravan Park. People wanting to stay at the park should book ASAP as this is a Long Weekend.

Pre-registrations must be sent for all clubs with competition numbers by the 2nd March 2016; however it would be appreciated if individuals could register by Friday the 26th, to:
Jason Pember
11 Bering Prom
Canning Vale 6155 or to jason.pember@fpc.wa.gov.au
Or Phone 94555337/0428639858

Last minute changes to teams can be made by contacting Jason and leaving a clear message on 0428 639 858 prior to the event start time.

Bag tags are the responsibility of each Club.

Species prizes will be awarded for the biggest –

- Shark
- Salmon
- Herring
- Skippy
- Whiting
- Tarwhine
- Spare
- Tailor

Answer for January Word Find

Here is the answer to the Word Find puzzle for the theme **"Who and why?"** on page 16 in the January 2016 Reel Talk. When all the listed words were found, there were 39 letters left over, giving the answer to the question.

The answer in the 39 leftover letters was **"George Holman Surfcasters member fifty years"**

This answer article and any puzzles like the ones published in the October to January Reel Talks and their answers could not be published in future because the Reel Talk Editor cannot publish articles by the Editor without first obtaining the approval of committee for such items.

Since the puzzles contain a "hidden message" inside the grid of letters, the answer like above would have to be submitted with the puzzle.

That would take away the challenge to find the wanted words and discover the hidden message.

Just by the way, these unique SCAC oriented puzzles and answers were prepared by me using a computer program paid for and licenced to me at no cost to the Club. I also use 700 lines of code written by me in a VBA (Visual Basic for Applications) macro in an Excel spreadsheet to check there are no random duplicated words in the grid of letters, a common problem when listing 3, 4 or 5 letter words to be found.

Article prepared by past (by the time you read this) Reel Talk Editor, Terry Fuller

President's report for January

I have been told by some people that my President's report is always of a negative nature. This may be so depending on your outlook but there have been messages with constructive intent so it would appear some people have a narrower outlook or have trouble reading.

As this is the last Reel Talk that Terry Fuller will be producing and his resignation from committee has been tabled at the last committee meeting because of extensive pressure and targeting by some people, we will all pay a price.

I would personally like to thank Terry for his positive and conscientious contribution to the club which has always been to the fore as he holds our club in high regard. His work has been immense – Vice President, Secretary, Treasurer, Reel Talk Editor, Recorder, Website coordinator, Minutes Secretary, AAABA delegate – and his help and commonsense guidance he has given to me and a lot of committee persons and members over his many years of contribution has been outstanding.

He has also contributed with years of service to the Australian Anglers Association as Secretary, Treasurer, Recfishwest Board member, established and maintained the AAA website, and also Recfishwest's website. His work has been exemplary across the board and I treasure him as a friend as I am sure do a lot of others. Thank you Terry.

Eddie and Debbie Korin are still here and will take off in early February. Kaye and I have enjoyed their company immensely as have others, particularly those present at our house to welcome in the new year. From all club members - enjoy your nomadic existence and please keep in touch.

Ray Walker is plugging away sorting out his new vehicle so he can start his wandering again. He has just got to sort out a couple of health things so he is fighting fit to travel. His interest is with the club and always keeps in touch which I value as a friend.

I spoke to Joan Stam regarding the status on Trevor's health, and she told me nothing has changed.

There was a very serious incident at our last casting day which was discussed at length. Until a formal rule has been worded, dry casting organiser Ron Thomas has been given the authority to ban "any form of shock leader style of cast with a full power backswing." Unless we manage this we may not be covered properly by public liability insurance so the ramifications are too great.

There are a lot of sideline experts who make comments but I would suggest that members take the trouble to come down to casting and learn, because it is not just about banging a sinker down the V court as far as you can.

Double handed accuracy and single handed accuracy demand a lot of skill and drycasting teaches people how to use the different types of rods and reels along with technique, which is most important, and as a result will make your fishing experience much more enjoyable as well as enjoying a casting day.

Your fishing venue suggestions are starting to be collated but remember to decide on a balanced program. While Preston is a good venue there are other venues of equal or better experience as well as considering the longer venues which need a bit of forward planning, and also Rottnest. Even though Rottnest has become expensive some members are prepared to meet the cost because of the unique rewards and experience. Local and Swan River need to be looked at also because you are always able to fish the river on any local event.

If you put forward your suggestions be prepared to commit to them because there is nothing worse than to expect your Field Day Officer to go to all of them when only one or two other people roll up, or you will not have a FDO for very long.

Before last committee meeting I had a phone call from Michael Pisano who had to tender his resignation from committee for personal reasons. On behalf of all club members Michael we thank you for what you have done for the club and wish you well and hopefully will see you back.

At our last General meeting I was pleased to have Mark Nurse put his hand up to take on the role of Social Organiser. I had a discussion with him some time ago and I am very pleased with his positive response. Mark came to me after the last presentation night run by Pat McKeown (which was the sixth one organised by Pat) and Mark told me that it was the best presentation night that he had ever attended and I am sure he has been involved in many.

Pat McKeown has also come on board to assist Mark and I welcome him back. We are now in good hands for social activities so give them both positive feedback and support them.

This may be my final President's report subject to what you the members of this club decide as to what direction you want the club to go and who you want in the chair.

President 2015/16, George Holman

Kalbarri House for rent

The Club owns a house in Kalbarri which is ideal for a fishing holiday in the area. Access to the famous fishing spots at Wagoie, Lucky Bay, Port Gregory, etc is just a short drive away via the main bitumen road.

The Mallard Street house has easy access to the river, beaches and town. It has two reverse cycle air conditioners to keep you cool in the summer months and warm in winter. It has two bedrooms and will sleep up to eight (max) in 1 queen sized bed and 3 commercial grade 2 level bunks. The bathroom and shower were rebuilt in 2012.

Users need to bring their own linen, blankets and towels, tea towels, etc. It has a high definition LCD television, DVD/VCR, stove, oven, microwave, crockery and cutlery and all cooking utensils, washing machine, food fridge/freezer and an extra chest freezer for bait and fish.

Outside has a built in gas barbecue, a fish cleaning facility and a full width verandah. There is plenty of fenced parking space for cars, trailers and boats behind a gate. Pets may be allowed by prior arrangement but must stay outside the house. Rates are:

Off season	Short term (min 2 nights)	\$100 per night	\$100 bond
On season	Short term (min 2 nights)	\$120 per night	\$100 bond
	Weekly rates	6 times daily rate as above	

Surf Casting and Angling Club members

Off season	\$300 per week	On season	\$400 per week	} \$100 deposit/bond plus \$80 cleaning (updated December)
Short term	\$80 one night	\$70 per night (two or more nights)		

Winter/early spring discount special. A **discount of 20%** on the rates applies for all public bookings for stays during the months of July, August and September.

Members of clubs affiliated with the Australian Anglers Association WA Division, **and friends of members** of the Surf Casting and Angling Club receive a **20% discount** on the normal public rates.

See inside the latest Reel Talk for dates already booked. Contact Eric Parker for more details and for bookings, or email the Club surfcaster@inet.net.au Collect keys in Perth before leaving for Kalbarri. Check in time is 2pm. Check out time is 10am. There are 20 photos on the Club website www.surfcasters.inet.net.au/KalbarriHouse.html

If any work needs to be done in, on or around the house, please contact the Club for approval.
