Fishing together on field days

The Club encourages members to fish together on Field days, and will help arrange this. However it helps everyone if members who want a lift, want help or want to fish with someone, ask and arrange to go with other members. It's best done early, but can also be done either before or during the sign on or at the previous General meeting or any Club event.

Check at the General meeting for arrangements and discussions about when and where members can meet to fish together locally in the metropolitan area.

Deadline for Reel Talk articles and reports

The Reel Talk needs to be delivered to members during the week before the first Club event for that month. I try to get the Reel Talk printed on Friday so I can post it on the weekend or the Monday for delivery in the metro area during that week, however public holidays or Australia Post holidays can change that. Can I please have all general articles and reports

For the August Reel Talk, no later than 5 pm Thursday 23 July.

For the September Reel Talk, no later than 5pm Thursday 27 August.

I really appreciate getting articles well **before** the deadline, please. If I have all the regular articles and enough content, I may go to print earlier than the dates shown. **Please note:** These dates and times are deadlines and closing and cut off times, not targets for you to aim to just meet. If your article will be close to the deadline, please make sure you contact me well before or risk missing out.

Notice of Annual General Meeting and election of Committee

The Annual General Meeting of the Surf Casting and Angling Club of WA (Inc) and election of Committee for 2015/16 will be held at Coolbinia West Perth Amateur Football and Sporting Club room, Wordsworth Avenue, at 7:30pm on Wednesday 12 August 2015, the same night as the August General Meeting.

All Committee positions will be up for election. Some Committee members are doing some jobs only because no one else will volunteer, some will not be continuing on Committee and some will be reducing their workload.

Please consider who you want to be your Committee, and if you can help by being a Committee member. Please remember, if it is worth having, it is worth working for.

A Committee nomination form is included at the back of this Reel Talk and is available from the Club website <http://www.surfcasters.iinet.net.au/CommitteeNominationForm.pdf>

Recorder's report, June 2015

Martin Wearmouth has a couple of entries in the Open Fishing competition.

Another Presentation night has come and gone. Lots of work involved with all that.

See below for Species, Master and Grand Masters badge updates.

Recorder 2014/15 Terry Fuller

Species Badge competition

This is a continuous work in progress. The list of species registered to members has been checked for catches on the June Field day as recorded by the FDO in the Field Day spreadsheet, and new eligible captures have been added to the list.

Name	Bream	Flathead	Flounder	Garfish	Herring	Yellow Eyed Mullet	Mackerel	Mulloway	Pink Snapper	Salmon	Samson Fish	Snook or Pike	Tailor	Tarwhine	Trevally	Whiting	Wrasse	Amberjack	Dart	Banded Sweep	Western Rock Blackfish	Yellowtail Kingfish	Number caught
Mark Nurse			1		1	1			1	1		1	1	1	1	1							10

Gary Parkinson		1			1			1	1				1		1	1							7
Michael Pisano		1			1								1	1	1								5

The full list of members' recorded catches is on the Club website at <http://www.surfcasters.iinet.net.au/SpeciesCompetitionEntries.pdf>

Masters Badge competition update

Mark Nurse has brought his Masters count to 3 with a 5.9kg pink snapper on the June Field day, plus a 1.15kg tailor caught on the January Field day, which slipped past me and was not previously listed here. A photo of Mark and snapper is in the Field day report.

Gary Parkinson has started his Masters count with a 7.64kg pink snapper on the June Field day. A photo of Gary and snapper is in the Field day report.

Glen Wong's has started his Masters count with a 3.7kg salmon caught on the April Field day, which slipped past me and was not previously listed here.

The full list of Masters entries is on the Club website at <http://www.surfcasters.iinet.net.au/MastersEntries.pdf>

Grand Masters Badge competition update

Ray Walker has started his count with an 1.02 metre, 8kg (estimated) King threadfin salmon caught at 80 Mile Beach, south west of Broome.

The full list of Grand Masters entries is on the Club website at <http://www.surfcasters.iinet.net.au/GrandMastersEntries.pdf>

Wanted articles and photos

New and extra content is wanted from members for the web site and for Reel Talk.

Categories are photos, hints and tips, articles, members' stories, movies, etc.

I can take these articles in any of the usual formats, Word, PDF, text, email, even an audio recording for content, and any of the usual image or movie formats.

Please tell us about your fishing or other activities, and share those with other Club members and help to attract new members to the Club.

Dry casting report 7 June 2015

We had a another beautiful day for this month's casting competition. A very light wind from north to east with it switching to a light westerly after the end of this competition.

I must thank for the general co-operation by most members of the setting up and getting the gear away before noon it was terrific.

We had 14 casters including one visitor Mark Taylor who cast some very good distances in the 112 gram distance. Some of the results:

The best casts for the seniors Peter Pekaar 56 grams 140 metres

Mark Taylor (visitor) 112 grams 179 metres

Peter Pekaar artificial bait 138 metres.

Robert Pekaar got top score in double handed accuracy, 133 points

Mark Taylor again in single handed accuracy 22 points.

In the veterans Gary Gildersleeves got the 56 gram with 139 metres, artificial bait 113 metres and the 112 gram 139 metres.

In the double handed accuracy Terry Fuller got a very good score of 164 points. When I spoke to Terry he joked the only way now is for him to go down. I don't think so Terry, I think there will be bigger scores to come.

Dean Stewart left his double handed rod at home so George lent him one of his rods and Dean scored 119 points in double handed accuracy. I will be asking George to borrow that rod next casting day. That's not a bad score Dean.

George Holman top scored in single handed accuracy with 28 points.

Good to see Lee Yongli back for the second time and is still improving, well done.

Like I said at the beginning I like to thank everybody for their help which makes the day run smoothly.

Next month I will having our first Open single handed event at the end of the casting day on the 5th July.

See you there.

June 2015 fishing field day

Port Gregory and Local.

Overview. The June 2015 away field day was held on the May/June long weekend from 1pm Saturday 30 May to 10am Monday 1 June and was spread from the mouth of the Kalbarri River to Port Gregory with the club persons generally fishing beaches at Port Gregory.

As in May, a bit disappointing in that the numbers of SCAC persons attending this away venue was down considerably, fishing catch expectations was not realized as the results in Port Gregory consisted of small bags of mainly small tailor.

For the local event, Perth Beaches down to Preston, results were very much better. Times to fish were as above. Some quality fish were weigh-in with a couples of great surprises. To quantify, comparing bag to bag weights Local were about 4 times heavier than Port Gregory and number of bag fish species were up to twice.

The trip. Most of us drove to the venue on Friday to allow some looking around before the competition weekend.

The fishing period was from lines down at 1pm on the Saturday with fishing through the evening with the lines up at to suit returning to the Port Gregory Caravan Park and have bags weighed in by the FDO at 11am on Monday 1 June.

For the away trip a total of 7 SCAC anglers signed on. George Holman, David Maxted, Pat McKeown, Dean Stewart, Glen Wong, Michael Pisano with FDO Peter Osborne. Generally beautiful weather, no rain, calm or light winds only, with a low swell prevailing over the weekend. This gave comfortable fishing conditions. A couple of places were weeded out but on the following day had cleared.

All stayed at cabins at Port Gregory Caravan Park, very comfortable. Beach fishing was available a couple of km north and south of the campsite.

George and company fished a couple of beaches north and south of Port Gregory with some limited success. Over the first two days chopper tailor and a few dart were landed. They also tried the lagoon area in millpond conditions, with whiting biting very cautiously only on coral prawns.

George bagged out on chopper tailor, one dart and a couple of whiting over the first two days. Dave had a shoulder problem so fished awkwardly with a small light rod. On changing to a ball sinker and bait-cast rig, he managed to get 7 tailor. He kept trying for number eight, but missed out as the tailor school had moved on. He also managed to capture 3 whiting.

Pat landed 3 tailor and Dean managed one dart and one good whiting.

With reasonable bags of fish, the team decided not to fish Monday morning but enjoyed a sleep-in and a good breakfast before the weigh-in.

Peter, Glen and Michael did a bit of exploration late Friday and Saturday morning. Chopper tailor were found and while not prolific were there for the catching, with some returned, and some kept for bait. They fished the north beach on Saturday afternoon, early evening and caught chopper tailor. Not full bags but a good start and with another evening and two morning periods to come it was anticipated getting a bag would not be a problem.

Sunday morning Peter persuaded Glen and Michael to try some cliff fishing at Pot Alley, just south of Kalbarri, a 40 minute drive north. Water was calm with a low swell, on reflection too calm. This was a new experience for Michael and Glen. After a couple of casts, Glen was on. The fish headed due west at a great rate of knots, not slowing down at all, then a break-off as Glen tried to turn it. Guess was probably a large ray, with other possibilities were a shark or a very large mullet. We all caught large rabbit fish, sometimes known as "happy moments" as they have large spiky dorsal fins that can inflict extremely painful punctures. Michael managed one good skipper, but Glen could not find anything to put in his bag. Peter had a similar problem in that early landed a good fish, a baldchin groper, but on measuring as a little off one cm too short, so back it went. An hour later, after about 6 rabbit fish, bang he's on. A good fish, plenty of weight, some head shaking, staying deep, probably a large

snapper, but on finally working the fish to the surface, up came the biggest buff bream you could imagine. Sandra you would have been proud to catch one this size. Sandra is our Buffy Queen based on her Rottneest skills. Another one was hooked 10 minutes later, so with poor results we returned to camp.

That evening Michael and Glen headed to the beach north of Port Gregory. Chopper tailor were on the bite. Michael bagging out very quickly. A school had moved in close to the beach in front of them. Michael saw a huge fish swirl right in front of him. With an accurate cast he just about put his bait down the mouth of this animal as he had an immediate hook-up. Big splash and a big fish trunk with a dorsal fin headed west. Even though he was using 60lb braid line he was only on for a short period before break-off and seeing his reel spin like the wheel of a formula one race car. This was his first experience with a big shark. Michael experienced the excitement of a high powered short term fight.

With some home obligations and reasonable bags they arranged with the FDO to have their weigh-in on Sunday night and returned to Perth early Monday morning.

Peter fished Sunday evening at the mouth of the river at Kalbarri, at Chinamans, looking for mulloway as in past years success had been found there on good sized fish. No such luck, he and half a dozen others fishing this area for many hours with a zero result. Peter managed one tarwhine only for his session. Initially Peter tried for whiting near the mouth, no whiting only undersize tarwhine and one tailor all of about 40 cm long on his whiting rig. He returned to the beach south of Port Gregory on Monday morning looking to make up his bag of tailor. No such luck, this time was as dead as a doornail.

Local Field Day. While we did catch fish at Port Gregory it pales into insignificance compared to the local catches.

Martin Wearmouth had some family obligations over the weekend hence was limited to a couple of 3 hour sessions from about 4 to 7 pm both Saturday and Sunday. A couple of weeks beforehand he had heard of salmon catches at Cottesloe and had at this time also went down with a flick rod and landed some good salmon up to 4kg. Hence on the start of the field day, Saturday afternoon, he went down to north Cottesloe. He managed one salmon each fishing period, biggest close to 5kg uncleaned, a skippy and a herring, a pretty good bag for a local beach and only a few hours of fishing time. Martin took his two young sons Thomas and Christian along with him, with Thomas capturing a good whiting.

Two of Peet Wessels' salmon

It was the Surfcasters who went to Preston that had some really great catches. Mark Nurse, Gary Parkinson, Peet and Sandra Wessels had one of those magic weekends at the reefs north of Preston Beach.

Peter Butland attended this venue, but had some health issues so did not fish hard or weigh-in fish.

Peet and Sandra found salmon with Peet bagging out on salmon, with his best being close to 4.7kg uncleaned and Sandra's about 4.1kg uncleaned. He captured two on Saturday night and rest on Sunday morning. Sandra got one. They also managed to get some tailor, Saturday at dusk being prime tailor time, a bag limit of herring, whiting, and some tarwhine. Peet had the heaviest bag for the weekend.

The outstanding catches for the week-end were by Mark and Gary.

Gary had some herring, whiting and a flathead and deciding not to retire early on Saturday night, fished late evening and boy did he have a hook-up on working the fish until tired out and using a wave to wash it up on the beach, was extremely surprised to see a beautiful pink snapper gleaming in his headlight torch. What a beauty. It weighted 7.64 kg gilled and gutted that would have made it about 8.4 kg as landed. It was the best fish for the weekend.

Mark also had some herring, tarwhine, a skippy and a yellowtail scad, and like Gary deciding not to retire early on Saturday night, and also fished late evening. He also had a good hook-

up using similar skills by working the fish until tired out and using a wave to wash it up on the beach, was also extremely surprised and delighted to see a beautiful pink snapper gleaming in his headlight torch. His first ever, what a beauty. It weighted 5.94 kg gilled and gutted that would have made it about 6.6 kg as landed. This was the runner-up fish for the weekend.

Have you ever seen people with such big grins on their faces and sending so many digital photos far and wide. Just shows, always ensure your gear is in good shape. 300 metres of main line undamaged, reel drag smooth, leaders free from nicks, hooks sharp and so on you never know when you will hook-up on that fish of a lifetime. Congratulations to Mark and Gary for their super snapper captures.

Tight lines

Field Day Officer, Peter Osborne

Preston report. A group of us decided to fish Preston Beach for the June field day, Gary Parkinson, Peter Butland, Ken Howell, the Wessels, newest newbie Scott Morrison and I made our plans and would meet up on the beach at various times.

Unfortunately Ken fell ill during the week and made arrangements with Gary to collect the scales, I personally missed Ken, he is great fun at field days and his infectious joy at catching a fish was missed.

I was worried about what the storm had done to our usual fishing area, when I left after the swag surfing incident the sand bars that had made it such a good spot were already gone, when I arrived my fears were confirmed that it was now just a formless area of shoreline with no distinct gutter or hole that had kept tailor coming to feed on the resident whiting.

Gary and Peter B had set up in the previous hot spot and all in good natured fun informed me to move along and go fish somewhere else, the used words that all began with an f and ended with off. How rude, but not to worry I informed them that they were in the worst spot ever and that the storm had made it that they would catch nothing and that my spot 100m down the beach was a salmon highway.

With their mocking of my waders and that I looked like a Lone Ranger Nurse Shark ringing in my ears I showed them my bum and had to smile at our little group of buddies, you better bring your A Game of insults if you want to survive here...

I set to work catching whiting for bait and noticed that the guys where into a herring bonanza next to me and had to endure the screams of how rubbish my spot was every time they pulled a fish out the ocean, I ignored them, walked deeper into the waves in my waders and told them I was dry and they were idiots.

The Wessels arrived at around noon and set up between the warring factions but I could see in their eyes that they also knew this spot had had better days,

It wasn't long before they packed up again and moved on, we said we would communicate via channel 10 in Savannah Speak (Afrikaans) so that the potatoes to our left couldn't understand every hour on what was happening at our spots.

One hour later they informed me that they were on tailor and salmon, I told everyone but they told me to go away again with an F so I did and joined the Wessels.

Sandra Wessels with her tailor

Now this was where the weekend got interesting, sitting five metres away from Peet and Sandra is an eye opener, firstly because by watching them you learn more that you can imagine, they always have a kettle boiled for coffee and finally because they are just good people.

So here I was fishing over my first ever reef from the beach, I lost sinkers!! But I started to watch what the Wessels were doing and so started my reef lesson.

Winners are grinners: Gary's big Snapper

The Wessels will answer you honesty on anything you ask, well that was in between them hauling out salmon and tailor.

When it got dark I went back to where I had left my swag with a lot on my mind, I had to retie everything I owned to set up properly for the reef.

At around 8pm I saw some activity from Gary and realised he had a fish on, then I heard the screaming and laughter, I went over and saw a beast on the beach, I was immediately told to go back to my spot, needless to say with another F.

Seriously though, Gary had just done something I was led to believe is practically impossible, a pink snapper off the beach, well not impossible but not this size, here he had what my mind estimated at between a 9 and 10kg slab of beauty. It was just handshakes and high fives for the next while.

Over the moon with happiness for Gary I went back to my spot and wound in my whole herring, it was untouched so I slung it back out into the dark.

9.30 it happened, first a huge bite and then the drag screamed off, I set the hook and felt a good fish on, it was a great fight but my mind couldn't imagine what I saw when I finally slid it out on a wave, another pinkie, but this was impossible, then I started to scream.

I yelled to Gary that my spot was just fine thanks.

Gary and I were all smiles and that smile still hasn't left me.

Mark had a big grin showing off his Snapper

I now had to tie traces for the morning and it was around midnight, long after everyone else was in bed and I was also getting ready to sleep when my reel screamed again, I was nearly spooled by this fish, eventually I just tightened up the drag and held on and the fish turned, an hour later after a massive battle I had the biggest Ray I have seen on the beach, it was wider than my arm span. I put it back and said goodnight to the stars and the moon, at peace and feeling blessed.

I was up at 4am and packed everything to go visit camp Wessels again. The other guys asked me to wake them up when I went, Pete B told me to go away when I tried, so I left on my own. I showed Peet and Sandra a photo of the Pinkie, the celebrations started again.

The morning session saw Peet land another salmon to fill his bag and some tailor, then the bite stopped and the tarwhine invaded, a mulie lasted 3 seconds a whiting 10, the Wessels made the tarwhine pay and added another species, I was still on a reef learning curve and was now losing hooks.

I paid closer attention, asked Peet a few more questions and suddenly it all made sense, now I was ready to hammer the reef.

Sandra had found a stunning little whiting hole down the beach and Peet and I spent an hour or so catching bait, we chatted, we laughed, we discussed the world and our place in it on this tiny patch of sand and that we felt like there was no better place we could be.

The whiting were good size so we added them to our species, I fished right up on the beach not because I wanted to but because of a terrible cast and landed a flathead.

Armed with bait we were ready for the evening session and getting sick and tired of tiny tarwhine I put a bait on top of the reef as we had seen salmon cruising on top in the morning, at least the tarwhine didn't get it, I had almost forgotten about it when Sandra politely told me

that I had a bite, chaos ensued holding the salmon on top of the reef and I managed to land and quickly release the beauty.

Besides that fish, nothing else really happened during the night session, well except another 200 Tarwhine being landed.

During the day Peter B had joined us, I packed away all my stuff, took my chair over to Pete and we sat in the dark chatting and staring at awe at the stars and wondering just how big the universe around our little dot on the sand was.

The Monday morning session also saw no great action so Peet and I pulled out the smaller rods and started to try catching species.

Plenty of tarwhine ensued but amongst them were dozens of herring, a sweep for Peet and I got a skippy that was 25. as many zeroes as you wish to use, I asked Peet to confirm its length and released it.

I also caught something that none of us knew anything about, I took some photos, released it and hoped Peter O knew what it was, turns out it is a yellowtail scad, score one in the species column.

All that was left to do was pack up and go to the weigh in, the Pinkies were laid alongside each other and the celebrations resumed, lots of photos and Gary and I were left felling a bit star struck. I don't really remember much but suddenly I was on the highway home.

Tuesday saw Peet, Peter B and I having a long and profound discussion via text messages on the best technique, time, rig, bait and area to catch a Pinkie, it eventually came down to make sure in the dark you throw your bait when you are facing the water.

I see it as a miracle fish, right time place, destiny, call it what you will, fishing on the reef gave me a different idea, I landed 3 species I was not specifically targeting, it comes down to in this beautiful ocean teeming with different species you can only catch something if you have a bait in the water.

Casting practice and tuition on Thursdays

Some members get together for a social dry cast and practice and tuition at Yokine Reserve on Thursday mornings, starting about 9am, subject to the weather.

It is on the day after our General and Committee meetings and we will remind members that it is happening so that they can come along.

Come along for the practice or for some tuition in casting on a one to one basis and lots of tips from people who really know and succeed at casting, and try out different rods and reels and casting styles.

Distance casting, single handed accuracy and double handed accuracy as used in the Club's competition casting are covered.

There's also the chance to talk about what gear to use and practice casting for specific types of fishing.

Some new members who have taken the time to come down on the Thursday morning to learn to cast are Lee Yongli, Terry McLean and Scott Williamson and the improvement in their casting has been dramatic.

Contact George Holman, Gary Gildersleeves or Terry Fuller for more details or just turn up with your casting or fishing gear. Check first if the weather is not good.

Support from Alvey

To Surf Casting and Angling Club of WA (Inc) PO Box 2834 MALAGA WA 6944

Dear Pat, Thank you for your letter of the 24/04/2015.

I was pleased to hear last year's end of competition function went well.

We have sent some prizes again to your PO Box for this year's function. (These will be listed in the prize allocations in the July Reel Talk. Ed)

Your continued support on your web site is also appreciated.

Please pass on my best wishes to all your trophy winners on the night.

I hope the function is a great success for all your members.

Kind Regards, Bruce Alvey Managing Director Alvey Reels Australia

Support from Platypus

To Surf Casting and Angling Club of WA

Hi Pat,

PLATYPUS LINES is more than happy to continue to support the Surf Casting and Angling Club of WA Annual Presentation Night on Sat 20th June 2015.

Our Donation of 16 Spools of Platypus Platinum line, 2 spools of Platypus Platinum Plus Braid, Caps and Stickers to be used as prizes and giveaways will be sent to (Pat's address).

At PLATYPUS LINES, we believe in staying in contact with our Fishing Public by helping clubs such as your own.

Pat, I have included two spools of our newest Braid, Platinum Plus, if you wouldn't mind giving it a plug on the night and include in your magazine as indicated, that would be great. I have attached the press release for your info.

Any questions please call.

Kind Regards, Mark Nightingale, Platypus

The media release says: Platypus Platinum "Plus"; Quality Australian made braid thinner and stronger.

After two years feedback and continuous research, Platypus has remastered their popular Platinum Braid, to produce a stronger thinner Braid whilst still retaining the softness of the original best-selling line.

By employing a unique braiding process we are able to pack the PE fibres+ closer together decreasing diameter and enhancing the strength by up to 25%. The Braid's new process also locks the pigment into the Braid structure to ensure a more colour fast product, reducing fading and loss of colour.

When consulting with anglers one of the most important properties is softness, this increases handleability of the braid enabling smoother, more trouble-free casts.

Made right here in Australia by family owned and operated Platypus lines, we have made Platinum+ Braid for the fisho that needs a Braid at a price that won't break the bank. Everything that made Platinum Braid the unique AFTA award winner, just stronger and thinner!

Available in 5, 10, 15, 20, 30, 50, 80 lb in 125 and 300 yd lengths in Lime Green at all great tackle stores.

Central Seafoods - new bait sponsor

The Club has a new sponsor, Richard Buczak, Managing Director of Central Seafoods, who has generously donated 5 cartons of Fremantle sardines (mulies) as prizes for our Presentation night.

Each carton has 14 x 1kg packs of sardines, so there will be some happy member winners getting a good supply of mulies.

Pat McKeown approached them at the Malaga store. Check out their range of seafood and bait products available from retail outlets throughout the State as listed on their website

Social Organiser's report

Fellow club members,

It's all over for another year. The Presentation night was another very enjoyable evening.

As I looked around the room I could see a lot of happy and smiling faces all meeting and greeting fellow club members and their partners.

The partners really do deserve a special mention as they support you in your quest to follow your dream of that special moment when you hook into that fish as it runs you all over the ocean.

We had a vacant space at Table 2. It wasn't the look on George's face but sadly Kaye was not there but at home recovering from a visit to the hospital. We missed you Kaye.

Ron Thomas was also unable to make the event as Ron has a bad back and cannot sit for long. But this did not stop him from standing on the rocks catching fish. Ron really does soldier on.

Our Sponsors certainly did us proud. Everybody went home with a bag of goodies.

Without your support it we would not have all the smiles as winners are gridders. A big Thank You to you all.

The Woodvale Tavern once more really turned it on for us with top class service and very yummy food.

The staff led by Mandy did a really magnificent job. It was a delight to meet and see familiar faces looking after our needs and being very patient whilst we waffled on with our evening as they are waiting to serve the meals nice and hot. Well done to you all.

Congratulations to all the section winners. You really do deserve your trophies after putting in the extra effort required to be a winner.

All those that compete push the winners to another level. Just keep the pressure on and you will receive that special award.

I would like to mention the people that helped with the setting up of the room.

Terry for a really big task of sorting, listing and collating all the trophies and prizes, setting up the trophy table with assistance from George and Peter O. Well done it looked great.

Dean for helping set up the tables with the handouts.

Sandra our happy snapper with the camera. Watch out for the results.

Aine and Laurel for noting the raffle prize winners.

A big thank you to you all for making it the night it was.

Together we can achieve big things.

Social Organiser Pat McKeown

A message received from a first timer at SCAC Presentation nights: *"Thanks, George. Last night was the classiest prize giving I ever did see!!!"* This message has been passed on to Pat McKeown.

Article on Yellowtail Kingfish

Peet Wessels wrote an article titled "In pursuit of the King" about fishing for Yellow Tailed Kingfish at Rottneest. This was published starting on page 9 of the April 2010 Reel Talk.

Peet has updated his 2½ page article, including some changes in bag limits, and added rig diagrams.

This July Reel Talk already has 47 pages plus 2 inserts in it, so Peet's updated article will be held over for a future edition of Reel Talk.

Reel Talk Editor, Terry Fuller

Names on articles in Reel Talk

Before September 2001, pages in Reel Talk were sometimes just photocopies of a collection of printouts with various different formats, fonts, sizes and layouts.

When I first took on the Reel Talk Editor's job in September 2001, I set out the Reel Talk using Microsoft Word with all articles in similar fonts and layouts. This also meant that a PDF version could be posted on the Club website and the website and contents could be searched for words or phrases, and more copies could be printed easily.

During that stretch as editor from 2001-2006, my name did not appear on many articles, even though many were produced by me.

From 2009 to the present, as Reel Talk editor I have made sure the author of each article and updated article is named. Even so, credit is often given to others when in fact the update is actually all done by me.

Without a name on an article, it is not always obvious who wrote and would take responsibility for the article, and any assumption about that may be quite wrong.

So if you look through each edition it will now be clear who is doing most of the work. That's OK, up to a point, because the job of an editor is to take information and present it in an easily understood and consistent form. Having up to date access to results and entries is a must and helps the Reel Talk editor produce each months' edition.

Results for our Club's two major activities, fishing and dry casting, are kept in either the dry casting scoring spreadsheet developed and maintained and with data entry every month by me, or the field day scoring spreadsheet developed and maintained by me with data entry every month by the Field Day Officer, Peter Osborne.

As you will see from the listings in this July Reel Talk, these two spreadsheets do most of the recording work required for the Club's fishing and casting activities during the year, and automatically calculate most of the end of year winners and their scores.

AAAWA Delegate Meeting 16 June 2015

Main points:

- The Department of Fisheries has advertised an invitation for offers to surrender South Coast Herring G-Trap Fishing Boat licenses.
- The Recfish Initiative fund has been reinstated by the Government
- Estuary, Rock and Beach meeting will be held on 28th July at 7.30pm – all members from affiliated clubs are welcome to attend. This is to discuss the future events and members' expectations.
- State Dry Casting event has been scheduled for 25 October. Although the Yokine Reserve has been booked, there is a possibility that due to the installation of cricket pitches the venue may not be available. AAWA is looking at alternative venues and would appreciate any suggestions.
- A report on the Recfishwest's Fishing Associations Reference Group (FARG) 12 June 2015 meeting was tabled.
- AAWA shirts are available

Proxy Delegate, Victor Schilo

Reports from Ray Walker

Ray has sent me four reports on his trip up north, plus some photos.

His email on 23 June said "The weather has been fantastic, this is what I came north for. Probably stay at Quandong beach till Monday and head for Derby."

I will print these in coming months' Reel Talks.

President's report for June

Our annual Presentation night and dinner has once again come and gone. Even though the numbers were down a little on the average it was still a great night where members and their families and friends were able to fraternise together and acknowledge the achievements of our club year by the members who have participated in club activities.

The club has been under considerable pressure over the last 12 months but our Presentation night was a positive and we must continue to move forward and get involved in the club activities of fishing, casting and social.

People like Pat McKeown, who has been our social organiser for the last six years, are responsible for keeping our club going in a positive manner and we need to recognise them and assist by helping and participating.

Pat is stepping down at the Committee elections in August and we need someone to continue the work he has been doing, so please give this a lot of thought.

It was great to see the smiles when the awards were presented and raffle prizes were won of which there were many. Peter Osborne made two special prizes for two new members in Lee Yongli and Scott Williamson which were well received. A big thank you to all the prize donors.

I had the pleasure of welcoming Lee Yongli into our club at our last General meeting and it is good to see him both fishing and casting and doing well. Enjoy the club Lee.

It is good to see that Ron and Deirdre Thomas have returned home even though Ron's first "Port of Call" was the doctor's. He just needed a rebore and overhaul. Getting older is not all that it is cracked up to be!

Peter Butland has had more positive news so let's see this trend continue and he may even start to get some fishing on his program.

Scott Williamson came down to one of our Thursday morning practice casting sessions and he has certainly learnt a lot. If he continues he will soon catch up to Lee Yongli whose casting has improved dramatically and who is becoming noticed at our monthly casting events. It has also helped his fishing.

It was great to see Gary Parkinson and Mark Nurse catch a great pink snapper each at Preston and we could not wipe the smile off Gary's face at our last meeting. You have to have a line in the water, don't you Gary?

The election of a new Committee is in August and there are a couple of current office bearers stepping down or lightening their loads, so we will be looking to new blood to come forward to provide a solid future for our club.

You the members need to decide what direction you want to the club to head in and the type and quality of the people you want to guide the club. We need positive people with direction so we may move forward and enjoy our club.

We need to start thinking about the planned sausage sizzle on Sunday 6 December at Bunnings in Malaga as this will have a bearing on our club's finances, keep our membership fees stable and give benefits to club members throughout the year. Last year's event organised by Pat McKeown was very successful and resulted in a benefit by subsidising a much needed new air conditioner for Kalbarri. Pat had a great response to the call for helpers at the sausage sizzle and members only had to give up around three hours each to make it all happen. We need someone to organise this event.

Our next instruction period will spend time looking at our current boundaries for the local fishing field day each month. There has been a lot of comment about boundaries as they are not really local when we find ourselves fishing 320 kilometres of coastline which includes some fishing locations decided at our April meeting after a lot of time and effort was put in by Peter Osborne, our Field Day Officer. We have what we call an extended boundary for the local field day when the club fishes Rottneest as the main venue. We need to look at what local fishing was designed to achieve.

Looking ahead, State Drycasting is to be held on 25 October.

It would be nice to see more patronising our club monthly dry casting now that Ron Thomas is back and Gary Gildersleeves has been doing such a great job. Dry casting is one of our club's main activities and is an event where we can enjoy each other's company for the morning. Please attend.

Let us spend more time dealing with positives from now on and less on negatives. There is a comment from Mark Nurse elsewhere in the Reel Talk which says it all!!

President 2014/15, George Holman

Drycasting results 2014/15

The scoring system for dry casting is in the Club's Competition Rules Section 3.6 and 3.8. See also the article "Dry Casting point scoring" on page 30 of the March 2012 Reel Talk.

Results here show totals of best 11 out of 12 months' scores. Competition Rules section 3.8.1 specifies only the best 11 months out of 12 will count at the end of the competition year.

All of these results are calculated automatically by the dry casting scoring spreadsheet developed and maintained and with data entry by Terry Fuller.

Caster of the Year points 2014/15

The scoring system for dry casting is in the Club's Competition Rules Section 3.6 and 3.8.

See also the article "Dry Casting point scoring" on page 30 of the March 2012 Reel Talk.

Competition Rules section 3.8.1 specifies only the best 11 months' scores out of 12 will count at the end of the competition year.

Scores which contribute to "Caster of the Year" points start on page 29 of this Reel Talk, and the discarded scores are on page 31. All of these results are calculated automatically by the dry casting scoring spreadsheet by Terry Fuller.

Fishing Field day point scores and ranking 2014/15

The scoring system for Field day fishing is in the Club's Competition Rules Section 2.4.

Competition Rules section 2.4.5 specifies only the best 11 months out of 12 will count at the end of the competition year for the top ten point scorers.

No member attended all 12 Field days in 2014/15, so there are no deductions from the totals in the list of members' total scores and rankings on page 20 of the May 2015 Reel Talk.

Sportsperson of the Year points 2014/15

For Club events May 2014 to April 2015. All these results are calculated automatically by the dry casting and field day scoring spreadsheets both developed and maintained by Terry Fuller.

Added totals and sorting are done by another Excel spreadsheet. Names with equal points are sorted alphabetically. Blank means the member did not compete in any event for that category.

Results are sorted by total points, as listed in the approved Competition Rules.

Sportsperson of the Year percentages 2014/15

Here the results are sorted by total percentages, expressed as a percentage of the top scorer's points scores for Dry casting and for Field days.

Changing the winner to be decided by percentages was suggested at one time as an amendment to the Competition Rules, but the change was not put up for a vote by the members.

Names with equal points are sorted alphabetically. Blank means the member did not compete in any event.

Winner of free membership for 2015/16

The Committee offered free Club membership for one year. All members who were accepted into the club between July 2014 and June 2015 were in a draw held at the Presentation night on 20 June 2015 to receive one year's free membership.

The winner is Michael Inglis who receives a free Single membership for the 2015/16 year.

**Free Club
Membership for a
year**

All new members who joined during 2014/15 are in tonight's draw for one year's free membership of the Club.

Most improved caster 2014/15

This is calculated using the best increase in average score per casting day for 2014/15 compared to 2013/14. For the changes to mean enough to be a true and fair comparison to decide the winner, a caster must have attended several (or enough) casting days in both years, **and** competed in most or all of the usual casting events. In some cases the number of days have been adjusted to show competing rather than just attending and/or helping.

For this comparison, scores for all 12 possible casting days are used, since the people who would be affected by using the "best 11 out of 12 days" scores are well down the list.

New casters who started casting in 2014/15 will be included in next year's comparison.

There are some very interesting numbers in this list! But any comparison must first check which events and how many days the caster competed in.

The base data for these results are calculated automatically by the dry casting scoring spreadsheet developed and maintained and with data entry by Terry Fuller.

Another Excel spreadsheet calculates the averages and the changes and sorts these as shown.

Mandurah traffic bridge's fishing platform

A news item on the Recfishwest website says: *Recfishwest is pleased to see that important fishing features have been considered for the upgrade of Mandurah's iconic Old Traffic Bridge.*

The \$51.8m project funded by the State Government and the City of Mandurah will see the construction of a four-lane bridge featuring a pedestrian walkway and new fishing platforms. For many years, the Old Mandurah Traffic Bridge has been an iconic WA land-based fishing location providing high quality fishing and crabbing opportunities for all in the community.

We are delighted the State Government has listened to the views of the community in ensuring the design and construction creates a new bridge that reflects the importance of local culture and recreation.

This announcement will ensure this accessible and safe family fishing spot can be enjoyed for generations to come. It also recognises the importance of recreational fishing in the Mandurah region.

Kalbarri House for rent

The Club owns a house in Kalbarri which is ideal for a fishing holiday in the area. Access to the famous fishing spots at Wagoe, Lucky Bay, Port Gregory, etc is just a short drive away via the main bitumen road.

The Mallard Street house has easy access to the river, beaches and town. It has two reverse cycle air conditioners to keep you cool in the summer months and warm in winter. It has two bedrooms and will sleep up to eight (max) in 1 queen sized bed and 3 commercial grade 2 level bunks. The bathroom and shower were rebuilt in 2012.

Users need to bring their own linen, blankets and towels, tea towels, etc. It has a high definition LCD television, DVD/VCR, stove, oven, microwave, crockery and cutlery and all cooking utensils, washing machine, food fridge/freezer and an extra chest freezer for bait and fish.

Outside has a built in gas barbecue, a fish cleaning facility and a full width verandah. There is plenty of fenced parking space for cars, trailers and boats behind a gate. Pets may be allowed by prior arrangement but must stay outside the house. Rates are:

Off season	Short term (min 2 nights)	\$100 per night	\$100 bond
On season	Short term (min 2 nights)	\$120 per night	\$100 bond
	Weekly rates	6 times daily rate as above	

Surf Casting and Angling Club members

Off season	\$200 per week	On season	\$300 per week	} \$100 deposit/bond plus \$70 cleaning
Short term	\$60 one night	\$50 per night (two or more nights)		

Winter/early spring discount special. A **discount of 20%** on the rates applies for all public bookings for stays during the months of July, August and September.

Members of clubs affiliated with the Australian Anglers Association WA Division, **and friends of members** of the Surf Casting and Angling Club receive a **20% discount** on the normal public rates.

See inside the latest Reel Talk for dates already booked. Contact **Terry Fuller 9447 4545** for more details and for bookings, or email the Club surfcast@iinet.net.au Collect keys in Perth before leaving for Kalbarri. Check in time is 2pm. Check out time is 10am. There are 20 photos on the Club website www.surfcasters.iinet.net.au/KalbarriHouse.html

If any work needs to be done in, on or around the house, please contact the Club for approval.
