CLUB ETIQUETTE

MEETINGS

The monthly GENERAL MEETING is usually held on the second Wednesday of each month at 8pm. All members should endeavour to attend the meeting so as to keep up with club matters.

DRYCASTING

Casting is usually conducted on the first Sunday of each month. Instruction is given to all new members and a competition is conducted to improve and maintain the standard of our members casting.

FIELD DAYS

These normally follow each general meeting on the ensuing weekend. It is compulsory for anglers to attend both the sign-on and the weigh-in. Anglers who cannot attend the sign-on for work or other unavoidable reasons may make prior arrangements for a late sign-on. However, only under very exceptional circumstances will failure to attend weigh-ins not be penalized with the loss of points acquired during that field day.

It is the Field Day Officer's duty to inform the committee of any anglers who fail to attend the weigh-in. It is the committees duty to decide what action is to be taken. Disputes may be taken to the committee.

Entries for Game Fish Gadge, Club Records and Open Fishing Competitions must be lodged with the recorder within 30 days of capture.

COMMITTEE MEMBERS

Please notify the Treasurer and Reel Talk Editor of any change of address or phone number.

GENERAL ETIQUETTE

If you intend to resign from the club a letter of resignation should be forwarded to the Secretary.

Please assist the Treasurer by paying your subscription with-in. 28 days of the Annual General Meeting.

Arrears of 3 consecutive months may cause forfeiture of membership.

POSITION VACANT...

Social Organiser

AT THE ANNUAL GENERAL MEETING
OUR NEW PRESIDENT GRAHAM REELEY
WAS UNABLE TO OBTAIN A SOCIAL
ORGANISER FROM THE MEMBERS PRESENT.
THIS IS NOT A GOOD POSITION FOR OUR
CLUB TO BE IN AS SOCIAL ACTIVITIES
ARE A VERY IMPORTANT PART OF OUR
CLUB - NOT TO MENTION THE FUNDRAISING. IF YOU ARE INTERESTED
RING GRAHAM AND LET HIM KNOW.
THE OTHER ALTERNATIVE IS TO COOPT A CLUB MEMBER TO DO THE JOB
FOR A THREE-MONTH PERIOD AND IF
YOU ARE ASKED PLEASE DON'T REFUSE!!
GIVE IT SOME THOUGHT.

JANUARY FIELD DAY

At the last committee meeting a recommendation was made that the January Field Day be changed from the long weekend to be run in conjunction with the Mandurah 500. This will be voted on by the members at the next meeting. If you are interested in attending the January field day make sure you attend the November meeting and express your feelings.

PRESIDENT'S REPORT

The scales are still missing. If any member has them please return them to the club or ring Ian Cook who will pick them up.

The Committee Meeting was held at Frank Sutton's place on Thursday, at which it was decided the Christmas Party would be held on Sunday 10th December, start 2.00p.m. Salads and meat packs will be supplied at \$5.00 per head. So you will bring only your beer and spirits if required. Soft drinks and lollies will be supplied for the children.

Sorry to hear Eric Parker's dad passed away last week. The club sends their Deepest Sympathy to the family.

The club is running a Christmas Hamper Raffle. Will every club member please bring in one or two tins of anything to go into the hamper. Tickets will be sold to members and their families and friends.

City of Stirling is having a night on the 18th, Mal Kelly and Bruce to attend the meeting.

If any members would like to go Deep Sea Fishing with Shakari Tours and Fisheries see me and I will see what can be done on a trip. The boat takes 6 people and bait and all gear is supplied. Lunch and afternoon tea are also included. It is \$65 per head for the day.

George still has two windcheaters left. They are size 22. Ring George.

We still require a Social Organiser. The club cannot run any social events without him or her to organise it. So Please will someone come forward and do the job.

As you all know some members are down at Esperance this week. Hope they have some good fishing and other good stories to tell when they get back.

GRAHAM REELEY

THANKS
Eric Parker wishes to thank all members
for phone calls, cards and attendance
at the funeral of his father.

ABALONE SEASON'89

The metropolitan abalone season applies between Moore River and Cape Bouvard

Open season

The 1989 metropolitan abalone season opens on Saturday 14 October at 6 am and closes on Sunday 24 December at 10 am.

When to fish

Weekends only, Inside Marmion Marine Park, or within 800 m of the mainland and Penguin Island, you may only fish between 6 a.m. and 10 a.m.

Where to fish

The metropolitan abalone season applies between Moore River and Cape Bouvard. The Waterman Reef Observation Area is closed all year.

☐ Bag limit

Each person fishing may take up to 20 abalone/day.

Divers

Abalone may not be taken using compressed air breathing gear between Moore River and Cape Bouvard.

☐ Minimum size

6 centimetres shell length.

☐ De-shelling

De-shelling (shucking) is not permitted within 200 metres of the beach.

Why an abalone season near Perth?

ROE'S ABALONE are common on inshore reefs throughout south-west W.A. These algae-feeding molluses take about two years to reach the legal size of 6 cm. but when mature they breed prolifically. Females four or live years old may each release up to two million eggs every winter.

When early morning easterlies flatten the swell, and low tides expose the limestone reefs, abalone are easy to find in reef crannies and under the lips of rocky outcrops.

The number of people fishing for abalone has greatly increased recently, and in heavily fished areas, such as Perth's reefs, abalone stocks can become depleted.

Bag limits and legal sizes, as long as people stick to them, are usually enough to protect the abalone from depletion, but near Perth the recreational fishing pressure from the large population is so great that a closed season has been introduced as well.

Without the closed season, and the other fishing rules, the reefs would be rapidly stripped of most of the accessible abalone.

These fishing rules protect the breeding population of abalane which maintains the stocks, but they also help to share the catch amongst the large number of people who enjoy a feed of fresh abalane each year.

HOW TO CATCH ABALONE

Always carry a gauge to measure the shell. Aluminium gauges for measuring abalone, crabs, rock lobsters and marron are available from tackle shops under the "mako" brand.

Get a loose-weave net diving bag or similar to carry your catch (available for a few dollars from diving shops). Use a broad-bladed screwdriver.

Mark the legal size of 6 cm on the shaft of the screwdriver so you can measure the size of the abalone before prising them off the reef.

Quickly and gently stide the blade of the screwdriver under the foot of the abalone, and quickly lever upwards to flick the abalone off the rock. If you miss the abalone will cling to the rock like grim death. In this case leave it and find another unprepared abalone. You won't get it off the rock without breaking its shell, and ruining its flesh.

When you have your bag limit of 20 abalone, take them home to shell them. Cleaning abalone is not permitted within 200 metres of the beach, so that abalone guts and shells don't spoil the place for other beach users.

Recreational divers are not permitted to use compressed air breathing gear to take abalone between Moore River and Cape Bouvard.

FURTHER INFORMATION

For information on recreational fishing of abalone contact your nearest district fisheries office (listed in the WA country telephone book) or:

Fisheries Department of Western Australia, 108 Adelaide Terrace, East Penh 6004 Tel. (09) 325 5988

For Marmion Marine Park contact Department of Conservation and Land Management, Hillarys Boat Harbour Tel. (09) 448-5800

Cooking your catch

Abalone are a gournel sealood, highly prized in South-East Asia and Japan, and becoming increasingly popular amongst Australians.

Fresh out of the water, they make a delicious seatood starter to any meal. Australians usually flatien them well with a steak mailer, and then lightly golf or fry them in a little butter or clive oil.

To tenderise ablations without beating, pressure cook them in a 2 cups of water for 20 minutes and allow them to cool in their own juices. They can then be used in any of your favourité seatood recipes.

Abalone curry

INGREDIENTS (serves 4)

20 Roe's abalone, well scrubbed and sliced into strips.

- 1 orion, finely chapped.
- 6 cloves garlic, crushed,
- 3 cm fresh ginger, finely chopped
- 2 staks kesh lemon grass, or grated peel 1 lemon.
- 1/2 leaspoon blachan (shrimp paste) (available from chinese grocery shops).
- 4 leaspoons lace powder (evallable from chinese grocery shops).
- 4 teaspoons ground cummin
- 1 cup fresh cariander leaf, chopped 4 finely chopped fresh green chiltis, or 1 tenspoor chilfi powder (or less to taste).

- 3 cups thick coconut milk (or 1x 375 ml can)
- 1 tablespoon light soy or Thai fish sauce
- 1 tablespoon peanut of

METHO

Grind onion, garlic, coriander leaf, blachen, and freshignper into a paste in a lood processor or blender. Heat pearut oil in a pressure cooker, and gently fly onion mixture until soft and golden. Add abalone, chairs, scy sauce, occorut milk, and lemon grass and pressure cook for 15 - 20 minutes. Remove from heat, add remaining ingredients, stir well and pressure cook slowly (to prevent special socking) for a further 15 - 20 minutes.

Add sail to teste, and serve with plain boiled noe and salads. PAGE EIGHT

OCTOBER DRYCASTING

As the long weekend was the first Sunday in the month Drycasting was moved to the second weekend.

A cross wind made things a bit tricky but casting overall was good, with George casting 165 meters, which was the longest cast of the day.

Artifical bait saw Eric and George both cast 130 metres.

In double handed accuracy yours truly hit the Bull's Eye. Heath top scored in this event with 125 points. Watch out dad, Heath is returning back to form. It's good to see Filomena back at Drycasting and doing very well. especially in the double handed accuracy. (142 points)

It would be good to see a few more at Drycasting now the weather is warming up. Dad's how about bringing your Juniors and Mini-Juniors along. It's a good fun morning.

Next Drycasting day is November 5th at Yokine Reserve at 9 a.m.

AAA DELEGATES MEETING 17 OCTOBER 1989

- AAA Presentation Night 7.30 p.m. Saturday 25 November Sportsmen's Association, Stancliffe Street, Mt Lawley.
- Northcliffe Angling Club Fishing Competition on 4 and 5 November 1989 - All welcome. (Yeagerup Beach to Fish Creek).
- Profit derived from the State Boating Titles gave \$1,500 to the AAA W.A. Division.
- 4. Clean-up Australia Waterways on Sunday 21 January 1990 nominated. AAA looking at co-ordinating a clean-up activity. Swan River looks well organised. It is suggested say Marmion Marine Park as a Project by AAA for participation by Clubs. Clubs to indicate if they will participate.
- Mandurah 500 Competition Run by Surfcasters on 13 and 14 January 1990.
 Request for publicity, i.e. posters to be distributed to Clubs.
- AAA looking for a host club to run the Drycasting Competition for 1989/1990.
- Students information booklet on fishing is going to print through the Fisheries Department for distribution through schools. Approximately 23,000 copies will be distributed by the year end.

SUBS OVERDUE

Subs are now well overdue. If you have not paid yours please send a cheque to the treasurer.

PAGE FOURTEEN

XMAS PARTY

Sunday, December 10

at the CLIFTON'S, Rousset Rd, Mariginiup, at 2.00 PM

BBQ Packs and Salads will be provided at \$5 a head (under 10 year old free)

Lollies, cool drinks supplied for children

Father Christmas will be attending, so if you would like your child to receive a gift please bring something to the value of \$5.

NOTES FROM EDITORS

Due to the lack of response for stories on fishing, the editors have been forced to make a trip to Steep Point so that next month we will have a fishing report.

Please send us some stories as we can not afford to go again next month.

Don't forget at our December meeting drinks will be supplied by the club. Please bring a plate.

Any member who may have a use for the gestetner previously used for the Reel Talk, should contact Owen Winlte on 444 3741 Any offers will be considered.

MAKE AN OFFER AND YOU OWN IT!!!
